

# Free Speech Absolutism

Greetings to all our Satanic Family and Comrades.

Many people are wondering, so what, if we were in power, would we suppress the enemy, their culture or any of the like as some sort of political suppression? So, let me answer this question about you.

Provided there was a drug which was a truth serum, and forced all jews to say the truth as they see it...

No we wouldn't. We are all freedom speech absolutists, at least the majority of us. What we could do is actually give the jews total and unconditional freedom of speech for a while. Why? Because this would only approve and show our bigoted views as real in less than one month.

Even all these deranged asleep retards outside could just plain in the open see that we, the 'bigoted', may as well just be normal people who have had enough of jewish supremacist bullshit. Instead of thinking we just 'hate' on the jews, maybe they would consider we have done some research to observe a trend that has been ongoing for centuries.

The realest manifestation of the above is Israel itself.

Rogue state, built all of a sudden based on pseudo history, and based upon the extermination of Palestinians as a culture and as a people. This story does not need lampshades and soap of 60 trillion to be believable, because indeed, nobody even cares to believe this story. There are more important things to consider such as how the jews have suffered, in their mind, some hundreds of years ago.

The people of Palestine being raped and killed no is really not an important issue in this world, compared to how a jew FEELS every time he sees, from his condo in upper Manhattan, other people being nationalists at extreme percent such as

5% in a whole country, for example. Because this is the real problem. I mean after all they get a heart attack from this, and they definitely die from it (watch out of the drastic decrease in jews in the last years - Oy Vey), so it's our fault for it.

So in Israel things are just nice. Here jews are not censored in any way to express how they really feel about other members of the world. They openly hold conferences where they converse about our extermination, they openly talk about how great it is to hate goyim, they have imposed their talmud in their legal law, conduct DNA tests so people can gain citizenship, and many other things.

Imagine if we extended that extreme to Free Speech Absolutism worldwide, removing this need for them to just pretend to be some sort of entity that is like co-existing with us in anyway.

Instead of the jews lying and pretending to be a separate element, they could just speak their hearts content without legal persecution. Instead of coding a genocide plan for the Non-jews in the bible and mask it as a religion, they could just plainly tell all the members of the world they want to holocaust them, and that they don't have a right to exist. The top Rabbis in Israel wouldn't have to have their words taken from stolen videos from Israel to expose them, but they would rather be on National television giving speeches about how the Goyim are slaves and unworthy to live.

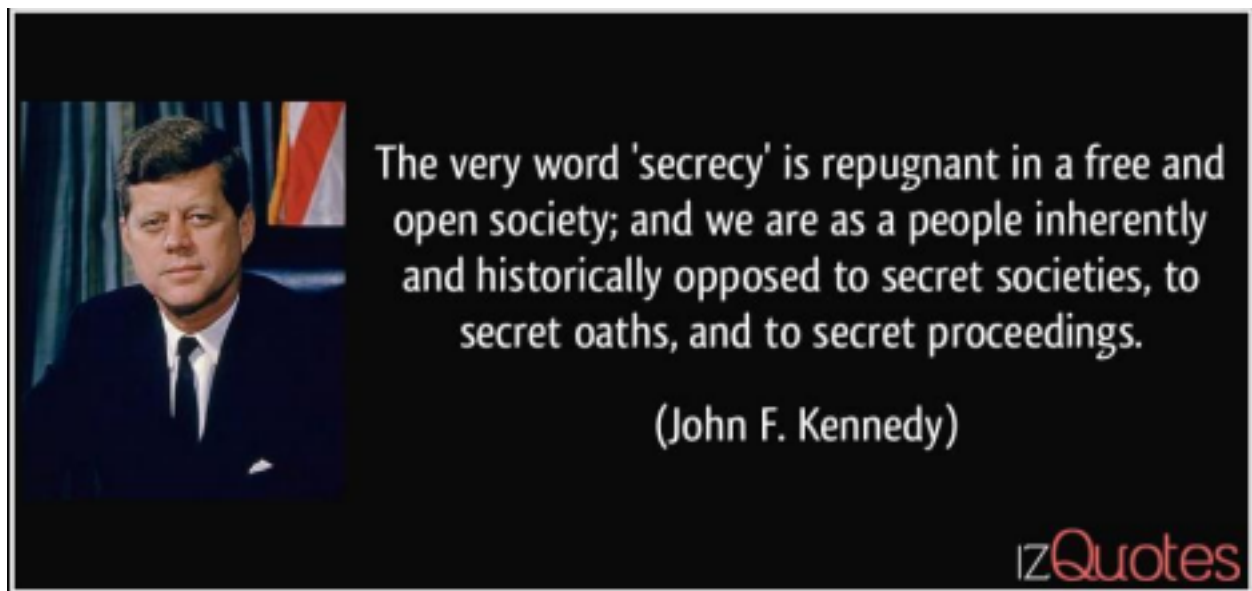

So I am totally against marginalizing and censoring the jews. They literally need to get out there. Hell, if I had a channel that could broadcast in every television and in every home, I'd give some of the top Rabbis some time there to explain to us how they see us the Goyim. The manifestation of this freedom of speech, where jews speak in unadulterated manners, is reflected in Israel and in their religious texts. They just have had freedom to express themselves there. Such as in the passages where they say that raping children is nothing but akin to poking them in the eye with your finger, in the Talmud.

Truly, there is no need to censor the jews, or anything like that. They need to be given the opening to freely speak. Freely hold conferences about how they want to exterminate the Gentiles. Freely go into TV and push their agenda, freely parade everywhere and spit in the faces of the Goyim about how worthless they think they are.

Then, of course, people would actually see what is going on and stop calling our kind 'bigoted', 'racist' and all the like.

One of the many reasons I am a free speech absolutist is that yes, everyone must speak their mind. Not letting the jew publicly speak his mind, has destroyed us for 2000 years now. Let the jews speak their hearts content.

Only the enemy is against Free Speech- because exactly the application of this free speech right, even by their own, has been the detriment to the hidden agenda. These agendas can only succeed based on oblivion of the victims. As Kennedy stated, it's the Free and Open society that the "Hidden Agendas" are afraid of. A few days later, he was assassinated for this array of statements.

Does anyone still wonder why the enemy hates free speech so much?
