

# Happy New Year to All of Our Satanic Family

HP Hooded Cobra 666

[December 31, 2016](#)

Greeting to all our People and Satanic Comrades!

Wishing you the best year, filled with advancement, manifestations of your aspirations, and the very best. May we continue to bless one another, and may we continue our highest endeavors together and personally.

You will see everyone welcoming the "New Year" in euphemisms and giant words, promises that will never stand, any many other funny things. However, you know the real key to internal change, transformation, and evolution. Which is Satanic Meditation. You know the reality of what it means to own a Soul, amidst so many people with all these decorative, hypocritical statements, that die by January 3rd at a maximum.

For this reason, you need to be thankful, for out of the billions walking in the planet, you have a chance to really transform, advance and evolve in your new year, irrespective of where you are. Thankfulness means application to make one's self better.

May the Gods always bless us, and may we always continue scoring wins and successes for them. With our determined effort and unbreakable works, we will conquer even more the next year, in the personal and transpersonal realms.

A year of advancement, expansion, and empowerment lies ahead for all of you, irrespective of where you are now. Usher your chance, and the next of the next year will find you ever triumphant, your present self being a memory of a prior state of your advancement. Make it happen. Make use of your blessings.

Additionally, a big thank you to all of our people who labor and fight, do work, who advance their Soul, and who resist the advance of this worthless tyranny of the enemy. You are writing history with your own will and pen, causing terror to this tyrannical idiocy that rules over the world at this point. We will fight and, in the end, we will defeat them, all together. All your contributions are valued and taken to heart.

All of you will enjoy special joy, and blessings by Satan, which you probably do already. Satanists are of the few people on the planet walking around owning their Soul, and having dedicated it to the one whose Name means the greatest thing to ever be grasped by the mind: Truth.

If you are not one of them, make sure to join us.

Happy and Satanic 2017!

May Satan bless all of you,

HAIL SATAN!!!!
