

Orwell's Nightmare is Not Coming...It's Here

In a recent wave of banning, the jews have been shutting down any and all material that does not comply with their agenda.

I uploaded a documentary mentioning all the known, proven and evident crimes of the jews in regards to the Black Race. And of course, this is 'hate speech'. I

did this because I want the Black Comrades to be aware and awake when it comes to that enemy.

Meanwhile, deceived Blacks, jews that openly call our extermination, making videos of Genocide and the list goes, these are all welcome. The jewish skills and many other instigators of hatred (real hatred, not ideological, such as publicly calling for wiping out all White people, or 'kill some crankas') are just welcome in the jew-tube community.

Apparently, this video hit a nerve on the jews, and it's now down in around less than 48 hours of upload. Because the jews know, that if Black and White people know who is the enemy, their reign is over, as Asians and many people down in Asia know them for the trash they are already.

We are living in Orwell's society. People who don't get this, will only understand it when it's too late.

I have done my part in revealing what the jews are going to do, as Satan and the Gods showed directly to all of us. The jews envision they will impose their own rule of technological slavery etc. This will be done through intelligent AI's and bots, and many other means, which they want to advance in the future.

As Hitler said to instruct and teach the people of the world in the Mein Kampf, reduce freedom little by little, almost to the degree that nothing is observable. Soon enough with that method, a nation or a state is plunged into complete and total slavery. Retarded and denial people who are too live and let be, and too much of an animal to accept the Truth and fight for it, will of course stay on the back, thinking this will never affect them. Until one day they will get to the Gulag, and work alongside those who raised a head against this tyranny.

This is exactly what the jews are doing. Reducing freedoms little by little. State law is becoming little by little talmudic law, the list goes on. The second amendment in the USA has been crushed. Freedom of speech no longer exists.

The jews are only focused on very few 'groups' out of all the 'trash talkers' and 'hate speech' groups. Jews proudly parade the bible, a book of extermination of all Races of people, and compliance to this is forced. Someone points the finger to this, and this is a criminal offense. The systematic attempt to genocide all races on the planet, instill jewish governments, etc., is all fine.

However let's be blunt, this universe does not work based on what is right, or righteous. It works on sheer force and domination, because right now, civilization has sunk on the level of a toilet. This is deliberate, and the jews want to bring down the last frontiers of civilization, that is, the White Nations.

Our worries, or damage, or wounds of war in this struggle matter not. What matters is who will win, and who will in the end prevail, because this is the future of the world at stake.

Humanity is marching into Orwell's nightmare, and those of us who are awake in this foggy night, we see it coming.

We have the time to change this now, and push back the enemy now, and not later.

It's a sad incident that many people disregarded Hitler's warning. When Hitler said that the crown of the Jew will be the funeral wreath of Humanity, he was just looking into this grim, possible future. Like the prophet of prophets, he warned everyone.

In many places of the world this has shifted on level 2 here. Soon, it will get to level 3 if people don't do anything to revert things back to normal.
