So what is the 666 gesture that goy celebrities make with their hands, constantly pointing at one of their eyes? Also 666 is actually related to Saturn. Saturn is the 6th planet, has 6 large moons, and the day of Saturn is the 6th day of the week. Otherwise, it is the Jews who celebrate the day of Saturn (Sat-ur-day you know...). The "www" we use on the internet is Hebrew 666. The letter "w" is the number 6 in the Hebrew alphabet. How do we explain these?

The 666 is a universal number of great power, and has to do with many things. One of these things, is about material power. The 666 is also the 36 manifested power, which has to do with the Union of the Soul and the elements of the material and the astral. It's a divine number.

All of this, relates to the symbol of the Hexagon, which is two interlocked perfect triangles, which shows the union of spirit and matter. This is all Ancient Greek, Egyptian and Babylonian knowledge, but it also exists in India. Still, today, in India, they give the Hexagon as a shape for the Heart Chakra - to signify the union of the higher and lower realms.

One is called an "Antichrist" or a "666" when they have successfully raised the Kundalini Serpent in full and permanently. That however, is NOT the final objective, and there is more to this. After this, we have 777, which is a number of further rectification of the soul, which the enemy falsely uses for "Christ", again of theft. The 888 represents another stage, and 999 and 1000 represent respectively another state.

In prior sermons, I have mentioned "SAT", which is the concept of True Knowledge. The symbol for this is the 1000. In India, this is surmised as the Thousand Petal Lotus. Satan, in His Poem, explains that this is the place where He makes His "Revelation", which is no other than the revelation of the Godhead power residing within.

The enemy, declares this number as hostile and evil [as with anything - Satan, the Gods, everything good in this world] and claims this is "evil". Even if they say it's evil and condemn it, they heavily use it and try to promote this. When Gentiles see this promotion, since the enemy is evil, they falsely associate what they see with the evil of the enemy, and they therefore start hating things like the 666.

Exactly the same charade is what the jews do such as Madonna and others, when they steal and promote 'Pagan symbols' for abominations of the jewish race. For decadence, stupidity and other defiled acts, they take the symbols of the Gods to desecrate them and give them bad press.

This is no different than how the Vatican, commonly uses Satanic symbols to ridicule them and blame the Gods for their own atrocities, which led many foolish people to also call them "Of the Devil", while clearly, they are nothing but the core of Christianity on earth.

People connect the abominations these infiltrator agencies they do in our lands, to their own Gods and the Satanic symbols, and distance themselves from them. This is a basic infiltration and theft tactic.

What the above is, is simple: You hypothetically dress as a cop to do a hypothetical crime, then you blame the cops for your crimes. Cops were actually there for your protection, but it's the police that will get the bad reputation. But all along, you were nothing but a fake actor, nothing sort of a cop. This is how Satanic symbols have ended up.

Saturn is not an evil planet, and it's greatly misunderstood. Saturn is associated with the Base Chakra and the Kundalini Power, the gift of Satan, and is connected with the 666. Saturn is the disciplinary planet that puts us in order, so that we can advance. Those who advance spiritually will experience less evil from Saturn. The Rites of Saturn are important in cleaning the soul, and getting to higher levels of understanding and power.

Saturn is associated with the power of Shiva to clean and purge the lower "self" so the union with the higher self can be made more effortlessly.

For this reason, the jews are obsessed with Saturday. Saturday and Sunday are the two important days to do certain meditations and procedure to advance in cleaning the soul in the week.

The WWW is a transliteration of the so called "VAU" letter of the Jews, but it's not a letter like this. The WWW is based on the Latin Alphabet, to signify again the 666. The World Wide Web belongs to the world, and not the jews. But Christian conspiracy theorists who don't know anything of the true agenda of the jews, or their symbols, confuse all of the above.

While the Jews have stolen everything, they use what they have stolen, and use it against us all. None of these symbols are evil. The 666 is a hallmark of Satanic Power, and the jews knowing how fundamentally important it is to the universe, they could not remove it.

The Jews are not the first culture to adopt the "Saturday" either, it was stolen from the Babylonians, who also followed a Lunar Calendar.

The Jewish people have nothing of their own. It's all theft by other wiser Gentiles and Ancient Civilizations. By misrepresenting what they have stolen, they deter Gentiles away from it.
