

# War on Jewtube

[May 25, 2017](#)

Greetings to all our Family and Satanic Comrades.

Jewtube is waging war on my channel, and they have flagged it, in the type of a shadow-banning. I used more than one way to evaluate if this is correct.

At the same time, the enemy is trying to 1984 on Videos that are of a 'racist' content. Or in short, call up facts of the jews. As thus my videos are automatically flagged, and they do not show anywhere in Europe, but only in the USA, and that only because there is freedom of Speech.

Criticism, "Thought Crimes" and expressing disagreement or dislike in a verbal way, are going to be 'tackled' by the jews. This is because they know astrologically and from people gathering knowledge, that public dislike has reached monumental numbers that shouldn't even be possible. Weren't it for them actually... DOING the things they are blamed about.

The enemy is isolating the people they want to kill first, and that is places like Sweden, Germany and other places which are infested by Wahhabists and future Jihadists. This is important they get exposed to information about the jews running the show. In Sweden, the government actually pushes spots to make people race mix. I will upload a film on that too, mainly put together by others.

By the way, all the cucked, Christian "anti-semites", do get promoted in Jewtube in more than one way. They also make it viral frequently, in 'recommendations' etc. Added on this, others who focus on socket groups like the "Illuminati" or some other useless, crap group. When the real enemy is mentioned... OY GEVALT, shadow-ban this now!

As for "Europe", these jews over there are taking steps to tackle all such contents that criticize the enemy, on the false pretext of the jewish created terror organizations who kill people.

Of course, no radical Mudslimes will ever be deported, no mosques where people are taught how to murder will be shut down, and no garages that are filled with AK-47 and grenades in Europe by the "PEACEFUL" Jihadists are going to receive any judgement. No people who rape European children will go to jail, and they might as well get compensation from the jews for acting 'right'.

Therefore, there needs to happen serious warfare. Please if you can, advertise my videos, at least, and snatch them off from jewtube, and put them in your own

sock socket channels. These can be many channels. Keep opening accounts and spreading them, if you would like. **I just want one thing: GIVE CREDIT. This is because we need to have a central place for people to come and actually find facts. Also, don't forget to share the links to the JoS etc.**

**It's not hard at all. You create an account, you download the video with that module:**

**Here is the most important video to spread:**

And then you re-upload the video.

You can put tags relevant to the video, or even completely irrelevant so it will show anywhere else. That's up to you to decide.

My documentary has reached 7500 views, and many jews, xians, and other people have been exposed to some facts about things. The enemy has blocked it from many countries, through shadowbanning, as there are no copyright grounds. It states totally that it is "Open to all countries". I logged from other countries' proxies, and the videos do not appear. It's just Jewtube, Jewtubing. You might as well use other platforms.

Just remain within the border of legality and do not upload these in any very strange places which can cause issues, such as xian forums, or wherever else.

Lastly, remember to print the JoS, download the Library in Archive, and always be ready and vigilant just in case. Keep this knowledge where it can be passed down, and the enemy will unavoidably meet the judgment for their crimes.
