

Satan's House Under Attack - Measures/Spiritual Warfare You Can Take

Greetings to all of our Satanic Warriors.

As you can see the enemy is terrified, and at a dangerous mode. What they know doing is not try to 'dispute' the accusations on them by any form of action or 'conversation', but indeed, only do what they have been eternally called out for. People who mention what the enemy does and just report it, are apparently to be held as enemies in this world.

What the enemy pulled a few centuries ago was the burning of the great library of Alexandria. People aka "Pagans" or "Heathens" like us here were rounded up and burned by the droves, only for believing in different beliefs than the enemy. We are told we have some sort of "Religious Freedom" in this world, but this applies mainly to Muslims who blow up to bits, and people of that nature, or people who shill and bullshit the public.

Just to make a notice here: The JoS is clearly a religious and spiritual site for the development of Gentile people all over the world. This attack is not solely an enemy chimp-out for 'mean things said' about them, but literally an attack to the spiritual bastion of Gentiles that gives unadulterated and clear cut instructions on how to advance from beginner to adept magician.

The JoS has created generations of people from 10 to 80 years old (Yes, and older) aware of the spiritual truth and the spiritual powers. These come from Satan HIMSELF.

The JoS is a non-bullshit, hard truth policy, on a place that you can advance freely spiritually. While others swim in lies and spiritual nonsense (The "Occult" of the enemy which is mostly disinformation that delays and does not advance). For some the JoS is only a teaching ground, but for others, it is literally their life. As to who else is into this, it goes beyond saying, the enemy did a rogue terrorist attack on Satan's nest one day before their Jewish Purim, aka, their biggest jewish celebration. Of course, many say these are coincidences, and they are fully stupid.

For the enemy however, there is no going back, but for "Our side" there is only going forward. Attacks against truth only bolster people. Nobody has to worry or fear anything - what everyone needs to do however is PARTICIPATE with us, and do some things so we can maintain the truth. On the heap of endless libraries who were burned, destroyed, and the people also who were burned to death, now, present day humans have the ability to retain the truth easily.

The only thing that remains a constant in defense of the TRUTH, is bravery, and a resolve. Our persecution is going to lead nowhere.

Now, please follow up on the following so everyone has a 'piece' of the JoS until we restore and expand our main website. I have lost track on how many things I have done to put life on this place, and it's time everyone else does the same, for Satan's dwelling is the dwelling of all Satanists regardless.

It's time to start considering this whole thing more seriously for people who are lazy, compliant, or just not into it. The enemy wants to destroy and censor the whole internet, spy on everyone, and these are signs of their terrorism. Without warning, they just burn things down one day, simply because they are getting exposed, for crimes they don't even care to go back to - but only insist on continuing.

Hundreds of millions of people have been burned, tortured, and destroyed, only for trivial reasons. Genocides have happened by the enemy. People who had spiritual knowledge were roasted, censored, or disappeared.

The end of the enemy with the internet, they want to make the internet like Television. You will open the channels, but they will be at every channel. The majority of the internet they try to control with big tech, but due to the Internet's nature, that is impossible. They have censored comment sections, ban millions of videos, put people in jails or send them hate or threats.

Even people who hover "around" the enemy are censored and attacked in totally unlawful, terrorist manners, threatened, coerced, and violently made to comply to the enemy's bullshit.

If people back down and comply, all truth will be lost. All your life will consist will not be anything spiritual and any freedom of thought or action will be lost. People will only be made into a borg by controlled information. As I told you, we need to win the information war, as this is the most important. The enemy has lost this war already, as the whole world is informed about them. Even the most brainwashed individuals do actually know about the enemy and have recognized them.

An ancient statement of the Tao says the following in paraphrase: The greatest rulers rule without being known, the second best rule by being loved and accepted, the third ones rule by fear, and the last level is when they are destroyed.

The enemy in the last two decades went from level 1 to level 4 and is now moving ahead to destruction. They try to hide, create false flag events, misdirect people, and their ancient terrorist tactics, all to no avail. There is no going back to them. They cannot really be an unknown conspiracy as they were before, people, even the worst NPC's cannot love them, and now they try to inspire fear as the worthless rats they are, resorting to terrorism.

Everyone should therefore understand what is going to follow for the enemy at this pace. Maybe if they censor they will get saved from the 'wrath' of some baby boomer or just some NPC idiots, but all valid elements of society who have some insight have seen what they are, and this can never be unseen.

Every time I climb mountains, I never think I am alone, and you should neither, as we are one family and one team in spirit and soul. Everyone puts a little brick to this greater house for everyone. Satanists should understand this now, if one does ignore this, then they are not a Satanist.

The enemy constantly calls humanity with the worst names, but it makes you wonder what is so difficult for these self-righteous reptilian and worthless feces garbage of race, and their descendant, to just 'enslave' what they consider swine? They seem to be really incapable of doing that. And let's say that they get their 'way' with the so called 'petty humans', do they really believe that they will get their way from Satan's ET's and other allies that they have? All the enemy is doing is walk into the fire on their own.

The Gods have related to us that we have won, and that is a fact. We live in different time perceptions, and they can see way further than we. We own the youth, our side, and our conception does. The enemy will be with mathematical precision be totally unmasked and ruined in the future. The only thing they can do is keep going as there is no going back to the good "ole" times where they had humanity by the balls and enslaved them so easily.

Keep up your Aura of protection, meditate and keep pumping in the RTR's. These can be found here.

Now in regards to the information:

0. To Receive Updates:

Always here and in the Yahoo Groups - If any of these also disappear one sunny day, or anything else goes down, updates will be posted in the following:

<http://www.kabbalahexposed.com> (Bookmark it if you can, or keep it somewhere so you don't lose the address)

<http://www.satanslibrary.org>

1. Download the Library backup.

This is very easy to download. You can download this from here, as a file that is renamed, and encrypted. It's relatively small so any phone can store it, and it can go into any USB.

Encrypted means that the file cannot be 'unlocked' unless you have the password. Even the file names inside the file are encrypted, so unless anyone knows the password, they cannot really break into it. You can store this locally or aside other files. Inside there are about 900+ PDF's included the JoS PDF and other important books, its basically the whole library.

The Encrypted file is here: Password to open it is 1789. You can rename it as you

see fit after downloading it. When you try to unzip it (7z unzipper) you will be prompted with a password. You don't need to do it, but keep it somewhere safe. This is updated on the 1st of March.

The non encrypted files (if you have privacy on your devices) can be found here, if you have storage privacy.
