Greetings to all of our Satanic Comrades.

As per request, I post this way earlier than the supposed time, to help our translators do their important work fast. Now also it's important to mention that we have worked tirelessly on backing up, archiving, and updating the library after the recent attack. Days of work have went into this. Now, we have also multiple mirrors, all of which will exist and if it needs be, we may expand them as well.

So long the enemy uses their terrorist methods, we will just keep on it. Everyone must also take the time to archive and back up these by saving these pages and so forth. Nothing hard. And it can come handy. If just 1/10th of the readers of this post just do this, we will have 100 libraries up.

I will also look into creating an offline schedule for RTR's, lest anything happens to the net or any of our panels, so the enemy will get destroyed regardless. This text will also include all the RTR's and new RTR's will be put in it and constantly updated. Since I can't do everything on my own, and my time is limited, I will be trying to prioritize this.

The situation with the global internet is climaxing. In whatever case, we need to keep up the RTR's, which will make every choice or move the enemy does fail and in the end backfire at them. **The Communications RTR is as thus *THE* PRIORITY!**

After this schedule, we will go very hard on the enemy. This schedule will also reaffirm other RTR's we haven't reaffirmed before, giving us a major boost as a group all-together.

Below the RTR Schedule:

11. 72, 42, Communications, Ending Confusion RTR
12. 72, 42, Communications, Curse Israel RTR
13. 72, 42, Communications, Curse Israel RTR
14. 72, Communications, Demonic Authority RTR
15. 72, Communications, Demonic Authority RTR
16. 72, Communications, Demonic Authority RTR
17. 72, 42, Communications RTR, Serpent Empowerment RTR
18. 72, 42, Communications RTR, Serpent Empowerment RTR
