

Reverse Torah Rituals for the Next Days [A Break]

by High Priest Hooded Cobra 666

[July 14, 2017](#)

Greetings to all our People and Satanic Comrades.

There is something in the work for the next days. As such, give us days for a new notice. The new notice will be in the upcoming days, and soon.

The next days can be spent for everyone to get up their energies, as we will hit hard very soon. We have been doing cycles relentlessly. The next few days can be used to get your energies up, relax, and fortify defenses.

For those who want to do rituals regardless, you can do the 72, 42, and Communications as these are the central rituals we must not stop. Others we can get to other times and re-fortify them as they are already set.

However you can actually take some time to relax and revamp energies now for stronger strikes later.

Take some time to regenerate your energies everyone. We have been doing great.

In the next days we will get some very powerful things out. Please check regularly.

Hail Our Satanic Warriors and Comrades!
