Greetings to all of our SS Warriors.

First of all I want to wish everyone happy Yule time and happy Satan's day which is on the December 23rd, a few days from now.

For the 22 nd , the 23 rd , 24 th and 25 th , we will be adding the rituals below to further celebrate Yule time. This is a time of joy and happiness, and a time to do a Thanksgiving ritual to Satan or devote time in the day of 23rd to show to Him how much we care. The Final RTR is a given for all days and it should be likewise done.

The Rituals below:

- JoS Protection Ritual & Wealth For Satanists Ritual [November 2nd, 3rd, 4th]

<https://www.satanisgod.org/ProsperityRitual.html> - Prosperity Ritual

https://www.satanisgod.org/JOS_Protection.html - Wealth for Satanists Ritual

The above constitutes the blessings we are to do onto ourselves.

Below however, let me describe a little bit of the ongoing situation with the Spiritual Warfare and the curses currently going.

It is important to keep in mind that the enemy will not sit idly and let themselves just lose it all and go away. This is not figurative speech, this is reality. It's not hypothetical, it's what is going on. Those who know about this should know better. They are not going to sit spiritually idle watching Gentiles spiritually advance either, nor is the enemy going to just sit down and take it while the planet may slip away from their hands.

Expect all sorts of reactions from them. This is not a time to sit idle. All of us have to keep doing these RTRs until the enemy's deal is sealed. We are around a bit more than one year in and the enemy has been getting it. They are past the point where they can save anything, it's too late for them, but there will be intense reactions.

Not long ago and this is insider information that is materially verified, the enemy has really mobilized everything they have spiritually speaking. This goes back all the way to the top tier of the enemy who knows what is going on. They know they are faced with extreme issues, and they related that "The Demonic activity is too high"

and that they can see "The emerging darkness" and "disturbance in the force", which is a reference to the movie star wars.

After this, the jews showed strange books that they say they are not allowed to use but every hundreds of years, to "lessen the upcoming punishment that is coming upon them". To make a long story short the enemy will simply pull every ace now. Younger Rabbis have no clue but those ones who are really learned understood what is going on.

The insider Rabbi was shocked and said that "it is their last chance" along the lines to try to make a final move to try to "contain the evil" of the Demons with specific rituals. Which he looked like he knew and was hopeless that it wouldn't work. Satan has clearly said we have won and there is nothing the enemy has time to do.

But they still have time for harassment or intense damage. For this we have to be careful and ready.

It is important henceforth to keep up the spiritual pressure with the RTR so that the enemy cannot even have the slightest gap to move on with anything.

We have to stay focused on the goal with the RTRs and keep on the repeat. As the enemy frequently acts repetitively and compulsively when it came to enslaving Gentiles, so it us our duty to do the same in reversing it and in backing up our people.

The enemy is nothing and the RTR is going to bring this to be. This rapid disintegration is going to be met with intense reactions.

Everyone can pride themselves in the joy that the enemy is going down and that they are a day and a dollar short. We just only have to keep going. After the disintegration of their spiritual force which has went to zero, what will follow is the disintegration of their control over the material world.

We stay strong and resolute and I wish everyone a Happy Yule and happy Satan's day.
