

Equality, the Gods, and Other Questions

Greetings to our Satanic Comrades and Family.

The purpose of this post is to address some questions asked here and there about our standing. First of all, the Joy of Satan has reached the core of the issues, which is the Torah and the spiritual attacks of the jews. Those who have open eyes and elevated consciousness, you can clearly understand how these things work. We have completely explained these. For that reason, the most important thing one can do is attack the enemy through magick and spiritual means, and then educate the people. Education and spiritual means can be as powerful and as actual as any physical action, only far, far worse. This is evident, since the enemy did take over by force only as a last resort and when they thought they had total power.

Another thing: It's been stated, Satan has Won. Yes, Satan has won the spiritual and the war "out there" with the enemy, but the thing is, the Earth is still under the conditions we readily see. The future is NOT set and is fluid, until it arrives. Yet, one can have this "predetermined", but where there is no total power, there is no totality in this. This has to do with the time/gravitational grid of the Earth, which is what it is and can't change. Outside it might have already changed, on the inside, events still go and we are all under this fluidity. In other words, different conditions are "out there" and different conditions are down here. For those who have elevated themselves, they can see the enemy has no spiritual power (other than harassment etc), other than the power they are given by your beliefs or your fear or lack of meditation. In other words, they are gone on this department from here below. This shows the enemy, spiritually, has lost. But down there, on the physical plane, their spiritual effort has brought them rotten fruits. And the physical is the last and slowest moving of all levels. Meanwhile as the physical comes, the enemy, if they are left unimpeded, they will try to re-achieve spiritual power. This is why we must wage full and total spiritual and intellectual warfare.

And these do not change overnight. Physical power is what it is, and although it's derived from spiritual power, when it's established, it's "hard" to bring down. For this reason, we must compensate with more Willpower. Also, the enemy is actively down here trying to push things, no matter what, to their final end. Even if they have lost, they will push until the last moment. Satan has incarnated people to fight in this time/space grid from the inside, as spiritual attacks carried here manifest more blatantly. This is identical to wanting to move something with telekinesis. If you are on the other end of the universe, you will need to exact maybe hundreds of times more force. If you are able to physically touch the item, you can move this right away.

The Gods are currently helping and will forever help us, but this is our Earth, and this responsibility we cannot escape; no different than how any other being in the universe cannot escape from the responsibility to mind their environment, fate, and self. It's just simple: if you don't do anything, this is again left on its own luck. Yet, always something guides this process and is responsible over it. Surely, when one is struck to the ground by a fatal blow, they need powerful allies to get them up. The Gods did that, and did do and will forever do, titanic efforts to make us understand, see, and finally, guide us to fight and destroy the enemy. This isn't the easiest thing, because Humanity has degenerated spiritually. This is definitely fully reversible.

IF you look at your physical life then you will see that, long story short, there is TOTAL disconnection from anything spiritual whatsoever before you joined Spiritual Satanism (except for those who had some fake watered down spiritual practice before). Even if you are a teenager, your past years have been anything but spiritual. The brain and body have adjusted to this and therefore need to re-adjust. The notion of spirituality in itself has been bastardized to no end, and people have been programmed to approach anything in certain ways so they will fail spiritually. Hocus pocus, fast solutions, farting out fairy dust, shitting gold, your own personal rainbow horse, all these "magic expectations" are included here.

This is why the JoS, at first, might strike a bit strange to someone who is clueless or pretty much programmed by the powers that be. The key is to approach things with an open mind. Read, evaluate, study, do your research. And seriously, FUCK your comfort zone. For your own sake and for the sake of your own happiness. Re-examine this, and be ready to "kill" your comfort zone, so you can transcend higher. "Comfort zone" is simply a programming that has been put inside your mind, for better or for worse. For worse in that case, as this is the enemy. Nowadays, "Comfort zone" is the zone where you completely give up on your own vision, where you give up to the laws nature indicates and forces you to abide, and pretty much kill your common sense and ability to see for yourself.

If the Truth degraded itself to everyone's comfort zone, it would not be Truth; it would be lies. And this is what the enemy does. Rabbi jewsus, Hippie Jewsus, Drug promoting Jewsus, Roman Jewsus, Cyborg Jewsus, Pimpster Jewsus (nails mary the magdalene), Half Pagan Jewsus, Pokemon Jewsus, Communist Jewsus, Far Right Wing Jewsus, Gay Jewsus, ET Jewsus, Pornstar Jewsus, Warrior Jewsus, Buddhist Jewsus, Meditating Jewsus, Ascended Mustard Jewsus, and the list goes, etc, etc. For every insanity, person, and idea, voila, one Jewsus. Lies apply everywhere, Truth is what it is.

Inside your mind, except for the JoS information or anything else that had substance spiritually, there is probably 95% trash that poses as false spirituality or outright delusional imagination, whatever, or even worse, nothing. Many people have even lost the ability to imagine or dream nowadays. It's the developed world, you see. For instance, all people know the brain adjusts to conditions, same with the body.

Re-adjusting the brain and bringing it again to a state of equilibrium between the male and female parts of it, takes time, and maybe years, even. This is like anything else in the Soul (which impacts the physical body) and how advanced one is. No matter where you are, it will take a while to re-elevate yourself. This is like entering a whole different life and a different environment, and you need to adjust, which you will, because these things are not really alien, but living merely physically like drones is.

This brings us to another point, which is the point of magick. Successful magick requires a strong and powerful Soul, which is also a powerful, focused will and brain. This is why you need to take care of your body. In order to be able to do magick, you have to tap to the other part of your brain, and direct it with the left side of the brain. This will happen in time. To most other alien Races out there, this is common sense. This part of the mind can do miracles, change lives, is the seat of all power - the Divine Mother. In order to awaken this, meditation must be done daily, and this will happen. This again, was common knowledge in the Ancient World.

Due to spiritual practice, after a point one will be very blissful. This is gradual and builds over time. Living blissfully and without suffering, without being dependent on external circumstances for your own well-being: this is a revolution. The enemy doesn't want this in any way. They always want you to be dependent, especially to them. What power will they have if people can be happy? None. The programs and everything the enemy has created, is based on and reinforces endless suffering. Then, no different than marketing, sells fake solutions, creates fake problems, and then solves them. Then repeat this again. When the product doesn't sell, change it or morph it. If it still doesn't, change the product. Xianity and the enemy programs are testament of that. The enemy profits, thrives, and lords over a society of people that are damned by them and go to them to be "saved". Misery is the stadium where they pull their big game. Misery that THEY themselves inflict. They would not survive a day inside a sane and healthy society.

Reverting this all and re-ascending to a whole different way of existence, this takes time and patience. This is beyond any selfish, materialist or whatever other types of "goals", or "wants", or "needs". Humans rush everything because of our mortality. Our mortality pushes everything to happen fast. We built a whole society around this mortality and rushing your whole life. Life is a race, get there, do this, then this, then that, then enter your coffin and go meet the big lie in the sky. This is very bad for the human mind and many can't take this. This is why so many people are depressed, suicidal, and feel like trash. But there is good news. You do NOT have to live that way nor ever should. With enough power, you can put your "law" to your personal life so to say. No matter what type of life you live, meditation, wherever, you have access to yourself. This is the time where you have fun, slow down, become lazy and shut down the external drama world.

Now another thing; many people do complain and constantly ask about the Third eye, and how to know if it's activated. Many people do meditate, but they do not take

some time to see what they have accomplished. In other words, after you are done with your meditation program, sit some minutes to see, passively, what you have accomplished. Do not expect. Just sit there and see. There is no right or wrong here. Just give and pay attention. By seeing, we don't always mean a visual experience. 3rd eye vision extends past this and involves all the senses, plus the so called 6th sense, or simply feeling. You need to be open with this and give it time. This is the Eye of Satan. The enemy hates this beyond anything and they curse it all the time. When this eye is properly empowered and the mind is properly cleansed of dross, this eye is the gateway for higher consciousness and understanding. Everything requires persistence, practice, and breaking your limitations.

Then, I always see another thing in the groups. People are advancing spiritually, and physically, but mentally, they do not force this advancement to catch up. In other words, you must realize and change your mentality. You are someone else now, you have changed, and after every meditation session you change positively for the better. As you grow, and this will happen automatically, your old mindsets will be thrown out of the window. Not the base of your character or who you are, but what is dross accumulation definitely will give way to greater potential. You are actually more and more powerful after every meditation session. Keeping around a xian mentality, this can be of severe consequence when you have power.

Nature creates everything unequal. I am so thankful that the Gods are so much higher than us and therefore, we have our guides, we can receive help, and make relations with other more prominent and powerful beings. They can show us the way, like a father to child relation. The fingers on your hands are not equal in length, yet this is the spirit of cooperation. Everyone to one's own, your position and always, with the ability to grow. Equality is NOT justice, as many idiots do believe. Justice is what is needed and altruism, not fake ass "equality". Equality kills the potential of everything and anyone, and is the recipe for disaster for all creation.

Equality also always relates to equality with those in the bottom. When one has hit rock bottom there are countless equals. As one goes and advances, there is justice, not equality. Equality sucks, and is a deathly plague that wears a fake beautiful dress for those who are too blind to see beyond this. Equality means death. Only inanimate things and dead are "equal". Not adhering to the notion of "equality" doesn't make one a bigot, bad person or whatever else in that stupid pseudo-ethical dilemma made up by the enemy. Equality forces many people to go really outside of what they can do, even if this seems like a paradox. One instance of that, is how everyone is forced to go to college for instance, or how many people who aren't made for certain jobs are pushed into this "baseline" of anyone else.

So long someone lives, someone excels somewhere, is bad somewhere. Someone else is good in this thing. I am a terrible painter, yet, I am very thankful there are good artists and painters so I can enjoy their creations which I can't make, for instance. Nature gives us, collectively, skills and spreads gifts to anyone. The more this process is followed and the more people are pushed to collectively and

personally excel, there is upbringing for the whole, which then again, pulls up the individual, and this goes and goes. The jews constantly rant and rave about "equality", yet they themselves say they are masters of the universe, that you are goyim, etc. Equality and assimilation for you, not for them. They know this is all a big crock of shit. For them, racial, cultural, and religious purity. Purity at all costs even at the expense of other members of their race. Because as all the Ancients knew, this is how everyone survives. The jews have taken this completely out of context, yet, they apply the basic rules with cutthroat adherence. The jews are vastly different than them, but their inability and unwillingness to advance, evolve, and catch up, has been their greatest weapon. And if even if the rot can make it so high by applying these laws, then what could we Gentiles do?

Nature gives us all abilities, paths, and works by her will, makes us unequal, so we can all strive to better our blueprint of self, which is one and only in the universe. The enemy is a communist and wants everyone to become a selfless amassment, destroying any and all will of nature, which indicates we should expand our ego and our whole at the same time. The enemy is not part of this. They are a literal accident that is constantly trying to impose their law through exploitation of the nature of others and in general. Equality is degeneration. Humanity goes forward by personal genius and not by mass "genius". Mass genius would only exist if the "baseline" for people constantly got raised and raised, and this can never happen through equality and lack of justice, as things are today. Nature indicates the way to personal and collective success. The Gods are about JUSTICE, *NOT* equality.

The enemy lies and keeps lying, that supposedly, if such order existed, the higher beings would execute the weaker or this crock of filth. This is their fear and they project it, as they know, when Gentiles find out what they have committed, they will definitely grow violent. This is their own criminal complex and how they see power. Power to them is not for help and to elevate, but rather, always a tool to enslave, conquer, and kill the host. Any parasite thinks that way, same does the enemy. This has NOTHING to do with us though, or the essence of power in itself.

Power is a neutral concept. Yet the enemy teaches people to love weakness and hate power. They are making power look bad by abusing it, since the enemy abuses all power they possess. Therefore, people obviously become disgusted and will then hate power. This is clever and prohibits anyone else from the pursuit of power, leaving space for the powerless jews to become powerful, and as thus, continue their actions. This is definitely what THEY would do if they found themselves at the heights of power. The USSR and Communist regimes testify to that. Because we are alien to them, and totally unrelated to them.

Claiming this is a case for Gentiles is definitely a fallacy. Cats or Dogs supposedly are "below" us, one would say. Yet, we live together, love them, they are no different than family members in most cases. While the fact is that Dogs and Cats cannot be compared to us or us to them, our "inequality" or "difference" is not a reason for any aggressive behavior, but mutual respect and affection. This is in fact the beauty of

creation. The enemy wants to assimilate everything, destroy all that is "different", and then use this remaining clump as slaves.

They are preaching "pro" diversity, while in fact, this diversity will kill ALL living diversity, beyond to the point of recovering. They are promoting diversity to kill any diversity.

This is the same as when they are promoting love through the senseless and deathly hoax of xianity, which kills and maims the ability of humanity to love, and translates love to the worst form of victimization and slavery.

On a final note, the enemy wants everyone to be "equals" so they can lord over them.
