The enemy as we all know, will now be and is more rampant than they ever were. Our side has been gaining power everyday, our people are becoming stronger and stronger everyday. Due to our efforts, the enemy is failing and crumbling fast. Everyone sees them and everyone is now AWARE of them. We have won the war, Satan has said this. The war was won back in Nazi Germany, when Hitler and our allies have exposed the jews. Since that exposure, it was only a matter of time. The jews can operate from the shadows but are weak, in the midst of billions of Gentiles that are being informed daily about what they have been doing to our civilization.

Thing is, I see everyday on moderation and such, idiotic "workings" or "rituals" and such, to dilute the energy of our group. This is definitely the enemy, as if we stopped now [which we will never do and never have], we are giving them extra time. The powers of Hell are now gaining much power everyday, things are to where their boat is sinking and 10 holes are opening, they can only put a patch in 2 holes, then 20 are opening and they run out of patches.

This is the part where we have to be mentally, spiritually and physically aware and strong. The enemy will not go down so easily and I call into every of your brave and Truthful hearts to hold your shield and your sword, metaphorically speaking, as this now is a drag that needs the most pressure. With many people over the years, no matter what or our relations, we have been fighting ruthlessly the enemy as a family. Now, we must all act as a family and leave all personal, group-ie or whatever drama, behind. This is the last drag where all Gentiles are called upon to finish off the jewish torturing of our lives, the rape of our Souls through their programs and the mass death and destruction they have at store for all of Humankind.

There were many people who have doubted, and their hearts in vanity and fear, they have quitted. There are by the multiplies more who have been with us every single day, every single fight, all along the war. I salute these people and they will be of the first to taste the fruit of our labor. There are these people here with Iron Will and Determination that are a reminder of what Humanity once was. And I salute all these people!

Open up your news and the newspapers and you will see, that you have participated in the largest and strongest SPIRITUAL attack the jews have received for centuries - you save the people all over the globe with what you have done and what we all together have accomplished. People from all Gentile Races, from all over the planet, from all over the world, have came here and we brought them back to the Truth and the God of Humanity, who requires us first and foremost to be free and sovereign as peoples and nations.

We are the people of Satan and OUR WILL SHAPES THE WORLD. Never forget this. These bastard people who have crippled us for centuries, killed us as Souls,

condemned us altogether in suffering and many in impoverishment, many in bad health (due to all the shit they do with their corporations), but ALL of us they tried to make slaves and put in total spiritual DARKNESS, so we would simply die off while serving them... The time of Spiritual Justice has come.

In closing, devote your strength, fortitude and energy in our collective effort to free ourselves from the jewish inflicted pestilence that is ruining peoples and lives for hundreds of years.

HAIL TO ALL OUR PEOPLES!!!
