**Update: 26 June 2022**

We are going to be settling in with the Japanese and Romanian Translation. Everyone else has been given as far as we can see whatever is necessary to work for.

If there is still anything pending, do mail me at [Cobra.army.666@protonmail.com](mailto:Cobra.army.666@protonmail.com).

**Update: 24 June 2022**

All projects have been successfully given all the tools they require. If anything has been missed, please contact at [Cobra.army.666@protonmail.com](mailto:Cobra.army.666@protonmail.com)

Everyone must actively start working and maintain these to the end. All of this work is for the Gods.

HAIL SATAN!!!!!!

**Update: 19 June 2022**

Infrastructure is on preparation for everyone to do the translations. For some, it's already set and everything is in motion. We are doing our best to accelerate this, so that every translation team is accommodated.

There is a lot of work that is going on. Certain countries are posing a difficulty level compared to others, and to ensure that the sites will hold on and exist, research is required on our behalf. This delays things a bit. The same goes for weekends and other said dates.

If any translators have NOT received a domain and translation infrastructure, let us know. The e-mail to use is [Cobra.army.666@protonmail.com](mailto:Cobra.army.666@protonmail.com).

Thank you, and as always,

HAIL SATAN!!!!

**Update: 11 June 2022**

Just wanted to update, that we had an enemy attack on some of our sites as of recently and they were attacked to the point they took them offline.

The vermin has attacked the Russian sites. Given the present condition in Russia, and the Communist undertones in the country right now, we cannot deny that the incident might be "Related".

This sets us a little back, but we are already working on the issue. We will have everything repaired, and soon we will be proceeding with the rest of the sites.

Quite a few projects have already began. Others are pending. Everything will go according to plan.

HAIL SATAN!!!!

**Update: 8 June 2022**

Some translation projects are finished on the main site joyofsatan.org and many sites [like Russian, Romanian etc.]. At the same time, there is always more non-translated material.

That is known by everyone in these communities. These sites, we will simply mirror them and continue working on them, while they will still remain under their head translators.

Other projects from the list below do not have the main site translated yet, so these will have to take priority. I write this because there seems to have been some sort of small ongoing confusion.

Already existing translations should NOT be redone. Maybe retouched a bit [if there are errors] but NOT redone, since this is wasting time for everyone involved. There

is also plenty of other work that can be done with other JoS Sites, which may be non translated.

**Update: 7 June 2022**

We are adding more languages to what will be translated and organized. All of these languages will progressively also get their own **Forum**, if they do not have it already. All of these languages will also have their own **Library** and fully functional community within JoS, if the situations permit.

All of this work is going to take some time. Please be understanding and bear with us as we prepare the infrastructure and everything all of these projects will need.

Know that **We are working tirelessly to provide everything to you so that you can translate easily and as flawlessly as possible, so that the work for you will be extremely easy and everything will be on the sites directly.**

**PS: More editors for our other Library Editing Project are also welcome.  
We also thank all those already working in the editorial project.**

**Update: 2 June 2022**

The Joy of Satan is being translated into many, many languages. We also have many projects that are being worked on the back end before publication.

If anyone wants to translate to the following languages, you must mail me at [Cobra.army.666@protonmail.com](mailto:Cobra.army.666@protonmail.com) so that you are assigned to a translation team and you can therefore contribute with your translations to Father Satan and His JoS.

IF ANY TRANSLATOR OR TRANSLATOR TEAM HAS YET PENDING THINGS [SUCH AS WAITING FOR A SERVER OR A DOMAIN, OR ACCESS TO THE TRANSLATION PLATFORM, ALSO DO MAIL ME AT COBRA.ARMY.666@PROTONMAIL.COM SO WE CAN FIX THESE ISSUES AND PROCEED!}

As everyone can understand, we will reach MILLIONS AND MILLIONS of people when the projects below are finished and solidified. Many are close to the end, others are progressing slower [more people will make this go way easier for everyone involved].

There is no set time one can choose to participate, you can do a few things, or many things.

We will provide anything that is necessary so that you won't have to. All one will have to do is just translate texts in a very easy way.

Russian

**PS: More editors for our other Library Editing Project are also welcome. We also thank all those already working in the editorial project.**

**Update: 25th May 2022**

Greetings to all of our SS family,

We have been feverishly working on the new project for the Library which involves my writings and editorial checking for them.

Be aware, certain e-mails some SS might have send, could have went unanswered. If this is the case, don't hesitate to ask me again.

Editing work is fairly straight forward, and we have built a platform where everyone can work as their time permits. We are currently around 30% done. There is more for those who want to come and lay a hand for this.

As there have been some misunderstanding and issues in regards to the project, I wanted to clarify the thing below:

**"Editing consists of correcting and fixing grammatical, orthographically errant or syntax errors, and alterations should only be made within this context.**

**It does not involve:**

Changing full sentences to "what you think would be best", making a single sentence twice as big.

Changing things you think would be said "better".

Changing whole words or anything of the sort.

Randomly including or subtracting sentences and paragraphs, or adding your own out of the blue.

Editing also consists of making recommendations. If there are strong reasons to have to make said recommendations, these writings that contain un-clarified parts should be passed on me to verify. Heavily editing whole things out of posts and similar acts are not editing, and that is called desecration and alteration.

This project is about editing, not doing severe alterations.

If certain writings need to be looked into for heavier editing, contact me on [cobra.army.666@protonmail.com](mailto:cobra.army.666@protonmail.com) but don't act without advising either I or any admin of this project. Thank you."

**Update: 20th May 2022**

We have sent invitations to all those who want to participate. Since it's a lot of people, we are more than probably done with this.

THANK YOU ALL!! We look forward to finishing this great work for the Gods.

We will proceed to organize now other language sections with their appropriate managers, and those who speak and can write in these languages can work on these projects instead.

If anything is not clear in regards to any participant, do mail me at [cobra.army.666@protonmail.com](mailto:cobra.army.666@protonmail.com) or e-mail [soaringeagle666@protonmail.com](mailto:soaringeagle666@protonmail.com)

We will also announce in due time who will be Librarians for each JoS language translation, and give them abilities to upload the PDF's in the Library on the spot, so that information flows smoother.

**Update: 19 May 2022**

Pretty soon, we will update the Library for ALL languages to be as sleek looking and functional as the main English Library. The prototype for the Italian Library has been made already, thanks to Soaring and Cfecit:

<https://josita.org/BIBLIOTECA.html> - PS: JoSITA.org is also an additional domain for the Joy of Satan Italian website, officially owned by Joy of Satan.

Additionally, we need more participants in for the next project, so anyone who has time, knows how to use Microsoft word or Open Office, can join us to edit posts so that we update and put more things in the JoS Library.

We have already quite a few SS who will work in this, but the more people, the better, and less workload for anyone involved. One can assume as much responsibility as you can, even if this means doing a few things.

Please do mail at [cobra.army.666@protonmail.com](mailto:cobra.army.666@protonmail.com) to receive an invitation to the project.

With a lot of happiness I am here to announce that the New Satan's Library has been fully updated. In a sense, the current ongoing eclipse, fits this change: A full eclipse has taken place in the Library.

It is by far, the best it has ever been.

For the impatient: <https://satanslibrary.org/English/>

Endless hours have went by fellow SS to edit the posts, but also to update the code. This update, took about one whole year on the back end [an enormous amount of work and work hours]. This is one of the biggest projects of the year, and it's concluded. We started last year for this.

The written work has been edited [more will be edited AND new updated posts will be put there as PDF's, library work is endless]. It has been reformatted, and now has a full functional SEARCH BAR you can use. Find whatever you need immediately, no different than the super handy search of the JoS.

**Currently, the Library boasts 1215 books.** Material that the enemy considered "forbidden" and took down, has been restored inside better hosting solutions and alternatives, since we will not accept the enemy's censorship and their destruction of knowledge.

In regards to the number of books and more updates, even this enormous volume is nothing, given half of my posts are not even there. We will editorially check them and upload them too over time. Then, new material and other expansion plans which are now still private.

Beautiful and decent posts from other members will also go there too. Maybe we could open a thread for which posts the community considers good and valuable, so we can enrich it. This is after all for Satanists to be able to go there and read.

I have only the biggest thanks to give to every SS that has worked on this, **SoaringEagle666, Lydia, Vanjunior and Serbon**. For their help in this work, their names will be permanently included in the Library footer.

The Library only needs a few finishing touches, and then the libraries of other SS from other countries will be uploaded.

Everyone can meanwhile browse it here and let us know how you find it. Do this from the phone and the computer too if possible, or even a tablet.

Next time, we will need more volunteers. The only thing you need is to know good English and want to work a bit physically for the Gods on something tangible. Don't hesitate to mail me to begin. Anyone who wants to work on this is welcome, as we need to accelerate a second update. Work for the Gods is most rewarding.

The Joy of Satan wants to bring the best quality and uplift the name of the Gods. May the Gods bless us in our endeavor. Hope all of you find this helpful and it's a help to your journey in your development.
