

JoS Websites Editorial Check Thread

Greetings to everyone of our SS,

I am writing this because the JoS needs to be edited. I think the best way to do this [the volume is simply insane] is for us to go and find the link with a mistake, and then post it here, and then we'll get in and fix what needs to be fixed.

To note, this is not to fix things that need updating, but solely editorial. Grammar mistakes, syntax mistakes, the list goes.

Anyone who finds a mistake, broken link, or anything of the sort, please post below. This way we will be able to fix things in due time. The JoS main has to be immaculate and without any said errors.

Thank you all.
