

Solving the Enemy Problem - RTR Schedule 5th of August to 9th of August [Concluded]

by High Priest Hooded Cobra 666

[August 3, 2022](#)

After we have been greatly successful with our latest Rituals, it is necessary that we do a short spiritual warfare schedule against the enemy to push them back. As we can see, they are on a high level of activity as per usual.

Less and less of this will be necessary but we will do co-ordinated strong attacks on them. Coupled by the fact that the Gods will assist us, and the fact that the enemy is moving towards the cliffs, all we have to do is keep the path open for this to occur so to speak.

The case of jews has unfortunately spread itself like a disease far and wide on this earth. The jews were not only irrelevant, but they were known by everyone to be superstitious, insane and arrogant. Inherently, they harbor many of the most glaringly nonspiritual and evil tendencies compared to all other people on earth.

Their blasphemies have no end to themselves, including the fact that they stole the culture of all other Nations they came in contact with, later on representing it as their "own", causing internal downfall for civilization after civilization. They boastfully declare they enjoy and love desecration and killing of everyone else, based solely on unverified claims.

To add insult to injury, they claim that this was the work of "God". And didn't you know? "God" is exclusively owned by them, and speaks only to the Jews personally. As one can understand, these people have nothing to do with "God", or rather, "God" has nothing to do with them. This is all fanciful talk for their excessive spiritual efforts to forcibly take over everyone else.

People were as retarded to believe this as Christianity and Islam left them without culture or knowledge of the Gods or what is Divine. In that gap, the jews were able to procure and expand a crusade of lies, that blinded humanity for a very long time.

After a few centuries, the combined situation of human ignorance and the systematic expansion of this by jews for their own benefit, added with the corruption of a few individuals, got us to where we are today. It didn't take all that much.

Not sure if everyone has been watching the news on Taiwan. Clearly, the enemy is itching like a crack addict to cause WW3. The show of the enemy is still being enforced.

People still whine about the flu that leaves people "sick" for 2 days, or we have

constant memes about weather lockdowns, eating bugs, dystopianism, WW3 - generally everything excreted out of the retardation of the jews.

If you literally sit down and think to yourself why any of this is happening, you will not find any explanation. The world was going fine, until in late 2019 "something" decided it should start going into chaos mode. That "something" is the enemy, who, on fear of exposure, decided to do what they do best: Wars and Crisis for human distraction and to procure misery.

The TV programs are as following now: "Guess what also goy, because the two jews have an unceasing war, all of a cohencidental sudden, all prices will be on the rise and guess what further goy, another coincidence, we might cut electricity our and natural gas supply on you goy, oy vey. That might incur a global warming or energy shortage or whatever goy, lockdown. Just be on the fear of wars and lockdown permanently goy. Did you get your 8th shot yet? Oy vey, it's only 2022. What a great Cohencidence like Co-Vid this is. Oy gevalt, oy vey this aint' the Torah goy this is just a coincidence."

Indeed, that is very good that is happening, because this will ensure that the jews will receive collective punishment. We are only here to accelerate this already formed hammer of justice that will fall on them. They must by all means intensify their great sacrilege until the reaper of their debts shows up once again.

Of course, that should not concern us, as the jews will perish in the holocaust they are attempting to create for everyone else. Regardless, it is very interesting to see how all of this unfolds. Satanists will survive and be blessed during these times, while Jews will offload all the universe's negative energy on themselves as they move towards their collective damnation.

The two jewish frontmen of the times are also inviting great curses and problems on the Jewish people on whose behalf they act to enforce the "Great Reset".

We get to live another reckless and nonsensical war from Zelensky, a well known literal Jew, fighting against Putin which is a crypto jew. Clearly the two jews cannot reach any understanding as the rivers of blood keep flowing endlessly between Ukraine and Russia. As the river keeps flowing, they want to continue.

This on top of everything will credit on the jewish people a great penalty of causing too, except of financial damnation, a chain of events that lead the civilized world into a form of indirect or direct megatons of damage. For what we can say, it's great that the jews are literally trying to force things through, it's getting worse on them by the day, and the weight of their own transgressions is the greatest manifestation of their own failure.

The existence of the enemy is a lot like a flu. Because we humans live short, we take this seriously, but this topic is only partly serious to the Gods, who see the enemy as finished already.

Now, in regards to those who think about the RTR's, we have to also mention that the new Rituals are very important and they allow the Gods to act directly on the effort, inviting them to act alongside us and help us all. None of this has happened for Gentiles for who knows how many centuries.

The Rituals of the Gods are directly tied not only on ourselves but the universe, and our collective existence as Gentiles. They also affect largely other Gentiles and do show the Gods that we are not a lost case collectively as a species, which is basically what we have been readily showing them for many centuries during which the large mass of humanity only cursed it's own Gods while very few of us that were "in the know" about their beauty and goodness had to live under persecution from the pitchfork masses of the stupid people that bought the Jewish fairytales borne out of the schizoid minds of jews.

The reason our Deities ended up blasphemed and slandered, is because of deeper notions of what they represent and control in the universe. That will soon be a product of the falsehood of the past.

More important than the jews are the people here, and blessing the Gentiles, who have remained without blessings and without Gods for centuries. To spend all our time just going against the virus will again act as an impediment that will not allow people to advance.

Advancing is necessary to remove the jews, compared to "fighting" them. "Fighting" them from the perspective of fallen, unspiritual and a retarded level never has worked. Instead, if Gentiles grew closer to the Gods, did become spiritual, and ascended themselves higher, then their efforts would matter as they would fight the problems the jews capitalize upon on their real root.

The enemy capitalizes on human stupidity, ignorance, lack of knowledge - and through these they create the so called "Goyim" or slave. If these are addressed, they will no longer be able to create nothing. Jews are where they are because Gentiles are Godless, careless, lazy, underachieved, and have left the collective fate of themselves and their Nations into literal chance.

Part of this was caused by the enemy, and part of this is because people took the wrong path and circumstances took a toll on them. Now the chance is readily available to reverse that.

Solving great problems that procure the removal of light in humanity, does indeed solve the enemy's damage in the fastest way.

The Old Satanic Freemasons and other visionaries who saw this knew that this was a long way from their time. They knew how much ignorance, illiteracy, hopelessness, lack of hygiene, and lack of development feeds all that we call "jewish".

If you read the Old Testament, it's only literally a bogus low level existence of dung. It's rife with rape, conquest, murder, death, stupidity and foolish claims of the jews. This is the level of stupidity they want humanity to exist into, and their "God" glorifies this state of stupidity, which only in the first pages of this manuscript of death, is described as a consequence of humanity's "Fall" from the higher levels of consciousness.

And of course, the enemy feasts on this level of consciousness to subvert what they refer to as "Goyim".

Our primary goal is to help ourselves and leave this world a better place, so that the vermin has no longer it's necessary nutrients, which are all based in the "human fall" and human misery. The more we heal in that regard and rise higher, the enemy will be readily diminished.

If a virus or infection manifests itself within certain parameters and conditions, treating the virus only is pointless. The very same conditions will give again rise to another variation of the virus. In this case, we have to solve the conditions mentioned above, and the virus will itself disappear.

The combination of Spiritual Warfare and our New Rituals will solve even more of this. Even what we have today is enough to stop them, PROVIDED people do what is necessitated of them.

Below is the Schedule for the next days. After this, there will be a relaxation period for all.

The RTR Schedule is short but this means that we will have to focus intently on this.
