

"Yom Kippur" - Full Victory Mode: Kol Nidre RTR + Final RTR

High Priest Hooded Cobra 666

[October 09, 2019](#)

Surprise fellow Satanic Warriors, we will give an extra gift to the enemy.

We continue until the 12th as was the original plan. But we will add some icing on this beautiful RTR cake to make it hit home and seal the so called "Year" of the enemy. We are already doing wonderfully, and we must take the route as we have now, and continue doing the RTR's daily.

We will add the Kol Nidre to the RTR co-ordinated attack. Below is the link for the Kol Nidre RTR. The date is such for the post for reasons that can be self evident. We aren't alone around here.

Now with that being stated, let us not delay and go on with this, so that we undo them quickly.

It's wise therefore to do it at least once in the next days, or once a day. The Final RTR is the priority for spam, but this ritual has to be shoved in. The "Kol Nidre" is a specialized prayer, and for those who do not know what it is, it's a release of all jews from all vows, and responsibilities for lying, murder, and crimes.

Occasionally, some extra 'gifts' may be put there in for the enemy, but our main wave of attack is the Final RTR. Due to how good we have been doing, we might as well add the Kol Nidre for maximum effectiveness and to just completely obliterate their energies raised at the holiday, in full. The aim is for nothing to remain after it and have clean slate to go on with further steps. We did great on Rosh Hashana, did Great for the 7th, 8th, 9th of October, so consider this a centred spiritual style napalm on the specific target.

We have to keep the win-streak going and this is by continuing to walk the path of success as we have been until now. For such a crappy holiday, we have been doing great in averting it. But we will do more and clean it all.

For maximum results, this should be done as following: Final RTR -> Kol Nidrei -> Final RTR. This is just oil on the spiritual napalm already in effect.

The next three days from 10 to 12th, we will be adding the Kol Nidre to the

Final RTR Based schedule. If you do elevated reps of the Final - all the best. Just replace one Final for the Kol Nidre, and continue as intended.

For example: Final RTR with x18 reps -> 1 Kol Nidre -> Final RTR with x18 reps is going to solve the deal beautifully.
