

# Masks Are Going to Drop Soon

The situation is appalling, but at the same time, this situation is perfect for us.

First, we had Trump cause collateral damage to the media, the pisslam, immigration, wrecked 'feminism' etc. This woke up some fools and gave them a push to consider that their opinions came into the mainstream. Then of course as we have said, here did go a betrayal, and this was just another jewish system attempt to control the flow of where things were going.

People will be forced to reconsider their whole 'system'.

With this stab went the faith of millions in the system, and it doesn't seem to be returning. We are in internet era now, now in controlled media era, where they can just propagandize and control the "goy" to 'forget' about it.

As a result, millions are now feeling betrayed. And can see the jewish enemy, in just one day. It has become extremely blatant.

Jews are marching for war because jews are losing it, and the more they march for this, the more they will lose.

Trump was really a giant victory for our side, the perfect mistake that could have done out of forced necessity of the enemy. Note how only in four months in office, he is throwing the Jews out in the open of controlling America, and being warmongering as they are, by playing on their agenda.

Trump is evidently a mistake manifested by our Rituals, and hated by the jews for this. Hilary would have never so obviously and so stupidly shown the jewish power to the large populace, as Trump has. Trump showed the last cracks in the jewish system, and the necessity of a large deception so that jews would again extend their power.

This also shows that the major populace is in complete disagreement to the jews. Therefore, Trump was a necessity that was forced on the jews. Now they try to quickly and aggressively start a war, to throw the global system into chaos, so they can consolidate power over ruins. This shows the jewish power is collapsing.

Aside of a war, and what this could cause, this situation is an excellent opportunity for masks to drop completely. This is something that we, the "Radicals" and the "Opposer of (((God)))" really need. With the correct handling with the RTR's, the public will go in the extremes, and forced disillusionment and enlightenment will flow about the jewish issue. Even these fools who say Israel doesn't run the world, somehow. They will be faced with the ugly facts.

Most people focus on the negative aspect of this. However, the positive polar aspect of that, is that the jews are being exposed more than ever, in such a fast pace that willingly or not, they are nailing their own coffin as a nation, people and global reputation. This is perfect for our side, and our narrative.

Now we have to avert war, as to avoid the plan from going even further and forcing things into other situational mistakes. The damage has been done, and the enemy is even more understood to be guilty of creating warfare at all turns.

2017 will be a very hot year filled with warfare. We need to be vigilant and aware. In the end...

"ISRAEL WILL GET WHAT SHE DESERVES" -Satan on the inevitable destruction of the enemy.

"Just as the enemy has people who cannot see us, we cannot see them. However, they will manifest blatantly as we get closer to the climax of our cause." -Amdusias to the JoS in 2003
