One of the Great Projects of this year has been manifested.

The Joy of Satan is now live in Germany, under the address <https://joyofsatan.de>

Now, the German people can find spiritual information and understanding. It was long overdue, and this project is of immense importance for our Germanic Brothers and Sisters. Now, many behind a language barrier in Austria or Germany can be reached and learn spiritual knowledge to help themselves and advance spiritually.

Special thanks to the creators of this project: **Larissa666** [For the copious work of website editing] and for the major aspects of the glorious translators, **NinRick, Fuchs and Yung Vap**. You have blessed your Nation with the most important Spiritual Teaching. A close to 100 million people can now have access to the Truth.

In curation of the project, I clearly saw this is a major threat to the enemy and constitutes one of the greatest works manifested by the JoS this year. We will try to overcome any hosting or other censorship difficulties, which are sure to come. We are aware of the high danger of that the site might be taken down, and for this reason we have solutions prepared in case this situation happens.

The site will get more translations as time goes, until all the material is translated. The core and the majority of everything is already done so the site is considered full and functional.

We also want to thank Azazel for His assistance in manifesting and finishing this project, especially after so much effort and quite a few setbacks along the way.

HAIL SATAN!!!!!!

HAIL AZAZEL!!!!!!

HAIL THE GODS!!!!
