

# Cursing Back the Enemy - Important

Greetings to all our People and Satanic Comrades.

I will try to keep this very brief. As our people grow and our side grows in power, the enemy and their lackeys will not just sit down and watch. They will curse, and curse relentlessly to get anyone down. The enemy knows, and many of the people of Satan are Souls with whom the enemy has had problems for a long time.

They hate you because well, you know them. We are not living in a free world. The enemy, who has occult monopoly, flies curses everyday, to destroy and subvert people and maintain strict control over the globe. People who are 'without' can instantly die from such curses, or even worse. Satanists are entitled and very lucky.

The enemy thinks people are cattle, worthless, etc. This is part of their brainwashing. They know it really well that Gentiles, especially those with occult power, are the only people who can challenge their alien authority. In fact, the enemy stole the means that the Satanic Souls of the past have produced, and they are now trying to rally this planet into slavery. This is not a joke. The enemy knows this. Everyone needs to comprehend this fully.

The more you grow spiritually, the more your power will expand, but at the same time, these beings will not be satisfied with this, anymore than a lunatic is not satisfied their time is closing over. The jews and the enemy hive are used to playing with the 'goyim' as if someone plays with pigs on a farm.

The enemy is well aware of what spirituality does, and as you all have seen, the RTR's have caused global changes. There are many freedom fighters on the line, and like the enemy keeps the back of their rotten, so will we keep the back of those who fight for something better for this world. From a person doing their first steps to wake up, down to people in high government that are trying to fight the jews and their alien agenda - it's up to us to back them up spiritually.

Think of that: they have NOBODY else. Literally, nobody. All other spiritual circles, plus the hostile enemy and aliens, are against them. This is not an easy fight for them either.

This will only escalate. Nobody must quit. Even if it gets hard, nothing will outweigh

the satisfaction of knowing that you have destroyed them, and that you have worked for something great. Satan has made handpicks of His people for a reasoning known to Him. There will be storms, but this should only motivate and reassure people that impact is being made, big time.

Our people have to learn peace, but also to fight. Fighting is necessary, and fighting is what preserves life, especially at a situation such as this. This fake "Peace" is only for the slaves of the enemy who have been flattened and are basically, spiritually dead. Nobody is beating on a dead horse. For the rest who are advancing, there will be some flack, but the benefits far outweigh the problems by infinite times.

Expect of the RTR's (This **Schedule Reminder** here is the most damaging and we will change it when it has served its purpose:

Here's what can be done on **Monday and Tuesday**. Ideally, you should be doing the Cleaning and Protection EVERYDAY. The cleaning doesn't take time at all, and when you become adept at it, it flows on its own.

Lastly, **The JoS protection Ritual**, it's advisable all people do this, so that everyone benefits from the massive energy we are going to raise. We benefit too, and we need to all be indestructible and together to get going. All members gain blessing and protection from this:

Do daily meditations, dwell on the nice, and stay safe.

Our unified success is everyone's success.
