In addition to this RTR destroying the enemy, I highly recommend everyone do this for personal benefits for 9 days straight without missing any days in between.

This removes curses off the soul and more. Jews have been cursing Satanists for centuries.

People who have performed this ritual have reported feelings of intense elation, blocked chakras cleared, a tremendous sense of peace and lasting tranquility, chatter of the mind which hinders meditation goes away, and much more.

9 days is required to make it final in removing curses placed upon us by the enemy. This requires reciting each of the words 9 times.

When you finished with the RTR, sit quietly and visualize brilliant bright light like the sun, beginning at the top of your head, scanning and brightening your entire aura and soul, scanning down to your feet, pushing out all of the dross, and brightening your entire aura and soul. Do this 3 times. Immediately afterwards, affirm 3 times:

My aura is constantly and continuously deflecting and repelling any and all curses, bindings, hatred, ill will, and negative and destructive energy directed at me and is immediately returning it to the senders.

Do this for 9 days straight, the full RTR.

I remember doing this one before.

There will be a most important blood moon prolonged lunar eclipse this next Friday. We will be posting on this soon. This spells total doom for the enemy.

Thank you

The nine days is based upon an ancient Pagan ritual, as 9 is the number of finality.

To properly perform the 9 day working, for 9 days straight, do the aura cleaning part only once each day.

You can do the RTR as often as you wish, outside of this.

After the 9 days are passed, you can do the aura cleaning with the RTR, and/or the RTR as often as you wish.

This ancient Pagan working, once each day for 9 days in a row has a lot of power. Also, make sure to check that the moon is not void before beginning any ritual.
