

A Message to Andrew Torba of Gab

HP Hooded Cobra 666

[October 30, 2021](#)

Mr. Torba our sisters and brothers here have informed us, that we have come to the attention of Gab, which claims to be a "Free Speech Social Platform" and "Welcoming to all opinions".

Gab grew into fame because it was shielding the rights of free speech. In the past, people here have spoken favorably about the platform, and we have tried to, like other people, freely disseminate what we think is correct onto a social media platform. This should be the right of free citizens in a free-speech society.

We were indeed under the sincere hopes that this was actually the case, but this was proven not to last. Recently it has been posted that you have decided to stop allowing people from the "Satanic Forum" here, to post our information on Gab.

The Joy of Satan is far from the paradigm one might understand about "Satanism", and it's definitely not what one would expect.

External symbols of "Satanism" have been used by many organizations currently tormenting humanity, yet, these organizations are of the Jews, such as Freemasonry and the related. The use of Satanic symbols from these are for mockery, and for confusion. In every Masonic Lodge, they prey upon, take oaths upon, and chant upon the Christian Bible.

It seems you do not believe too much in the power of your ideas, or "Jesus", or there should be no real problem for a group as small as ours to be on your platform. We considered Gab to be an Open Social Media Platform, which it probably no longer is. It seems to reflect a circuit loop of information akin to the degraded ex "Facebook".

Clearly, for whatever reason, you are going against your own values, in even more clear of your claimed positions about the soundness of the religion that which you follow.

Joy of Satan is not against Gab, and we have commented positively before on your efforts to promote free speech. If anything, we are only trying to speak with other people who are falsely and due to ignorant reasons, promote jewish disinformation about the Gods, which also happen to be their OWN ancestral Gods.

Christianity and its root of Judaism, come from the Jewish People. From these cultures, did arise the slander and attack against the Pagan Gods, broadly called later "Satan and Demons". The very word "Demon" is a generic term for "God" in the Ancient Greek culture, which is a cultural founding cornerstone of the Western World.

We disagree with this sentiment of promoting "Demons" as "evil", be it that they are our ancestral Gods, falsely slandered by the Jewish people for their own collective racial interests, which stand also opposed to those of the people of the Western Civilizations.

Be it that this is our opinion, we participated in Gab to promote our views, which are of course, up to debate.

Instead of any debate or simply be allowed to exist, you have commenced a wrongful purge against this information. This reveals worry on your behalf. If you are confident in your appreciation of Christianity as being "True", then you might as well allow us to speak our "lies". However your stance implies that you believe in values of censorship instead.

In the Joy Of Satan, after extensive research [which could also be proven if a Christian literally opened the Bible] we have come to prove that not only Christianity is a Jewish Fraud, but that it is the core of failure of all the moral and higher values you pretend you represent and try to shield through Christianity.

We want to believe that this is the route you have chosen due to lack of knowledge, which is unfortunately very prominent and alarming to a great extent.

However, we stand disappointed to see that indeed, the fact one follows jews and their jewish religions reassures that one has acceptance for censorship and stepping on their own values, something also very common in the history of Christianity.

Christianity was founded upon blood, death, burning of texts, and certainly not the values which you instinctively heralded, because indeed for one to herald these values, one has to be an Anti- Christian.

In fact, if you Mr. Torba want to be a good Christian, you must head towards the end of the book of Revelations, and read that the "Salvation belongs to the Jews", and stop doing things that agitate the ADL or other jewish organizations since that would be "Unchristian" of you.

According to the Bible, your standing up for freedom, even to an extent, is going to send you straight into "Hell".

Mister Torba, you must be honest with at least yourself, if not other people on your platform who are, understandably, Christian people. We don't hold particular hatred against these people, since we perceive them as misguided children of the Gods, and also, we are for Gentiles and against Jews.

The "God" that you worship, albeit falsely labeled as the God of the "West" or "White People", is actually a jewish Middle Eastern hoax story created by the same jews that persecute you and Gab. In its first state, it was created to subvert the Roman Empire, and it did manage to erode it.

Now, the jews are slowly eroding the United States. You are certainly aware of this reality, and it's reflected in what you write against them in your newsletter, which I do indeed read every so often as part of my general news reading.

Most of the Founding Fathers of the United States, have been known to have engaged both into the Occult, the "Satanic" and these practices that are broadly called heresy. And they were good people, with the values that you too want to defend.

That is because these values are not inherent to Christianity, but in reality, Christianity actually destroyed all these values wherever it spread. The same manifestation of this uplifting of jews inside a society, as the natural outcome of worshipping Jews in the guise of Christianity, causes the downfall of a civilization. The United States will be next if this trend continues.

Falsely, you assume that this persecution by jews has to do with your loving feelings towards what you think is "Jesus".

Yet, the jews are persecuting you precisely to reinforce the paradigm that the hoax that they created, that of "Christianity" constitutes a viable danger or opposition to them. It has not been the case for centuries. That is also the reason there has been no progress in anyone saving themselves from jews with these beliefs.

We strongly advise you to look online at the writings of Marcus Eli Ravage, who openly admits the use of the Christian Hoax as a subjugation mechanism for the "Gentiles" or those of us that they refer to as the "Goyim".

In these writings, Eli Ravage raves loudly and happily that they have removed our Gods, and gave birth to "Jesus", the ultimate lie that caused the great

subjugation of the people of what we call today the "Western Civilization".

At the same rate, an objective inspection of the roots of "Christianity", points us to nothing else but Hebrew and Jewish lore. Jesus is nothing else but a Rabbi from the Levant, the "Lord and Savior of Jewish people", that the Jews of course discarded since they were aware it was all a hoax.

The "Father of Jesus who art in heaven", is by name the "Jehovah", or the tribal "God" of the Jewish people. The four letters of the Jewish God, JHVH, are Jod, Hei, Vav and Hei, the fourfold letters of the Hebrew "Name of God".

As Jesus claims it's the incarnation of this, and also a proven physical Jew, we have to remind you what you already know but conveniently want to disapprove: you are indeed worshipping a Jew. In this case, whatever attempts of genuine moral values to fight against the Jews, are subverted by this false belief.

We are aware that despite of logical evidence pointing to this, you will, at least publicly, deny this information. We expect nothing else.

In retrospect, they promoted this hoax to the Gentiles, to deceive them and to distance them from their real Gods, the Pagan Gods. The Joy of Satan does represent the Pagan Gods, and definitely not anything "devilish", "ghoulish" or "Jewish".

It's great however that Joy of Satan has been brought to your attention by Mr. Torba, and we would wish you made your private research into what we write - if anything, to just read the so-called "Satanic" source that you cite and see if it's evil or if something else is going on.

Of course, he is free to not admit this publicly, and to continue doing what is intended of him on the free internet and promoting freedom of information, even if this is for a particular segment of people whom he is trying to appropriate through what we know to be false.

Lastly, the spiritual grace and understanding that you seek Mr. Torba, is definitely not on the place of dwelling of the Jews or their Jewish book. In fact, there is not a single thing in these books that was not stolen from an Ancient Pagan religion.

Jesus is only a Jewish hoax, and Jesus is not a "king".

Update - October 31 2021:

It appears, that for now, the wrong decision was overruled in the light of actual evidence.

We want to openly admit about Gab and its administration/moderation team, that they have proved to us that they are a people that judges justly, not based on emotions and appearances or random claims. We intend and will behave in the very same way towards them.

Our Gods are very strong on Justice and the values communicated in all of our material, which as anyone who has read it can see, is anything else but what slanderers claim that it "is".

These slanderers are also professional slanderers for aeons, having slandered all the things that came into this world from a higher source. They are the truly evil people. They have overwhelming control over all areas of society, a control that we believe is an instruction of the Gods for us to help neuter, since it will destroy all that is reasonable in this world.

We too understand how difficult this can be in a world where mass media and the evil of Anti- American values keep expanding. We are fighting this beast in all our powers for about two decades now.

As we live in this terrifying world of cancel-culture and where the United States is going down, what we can agree upon is that we are both espousing the values of Free Speech. The United States is being moved straight into Communism, with specific oligarchical people enforcing this for no reason. We cannot agree with this sentiment.

Gab proves to be different than all "social media", taking reality and facts into consideration more than heated emotional and petty personal responses. That is a value that we can understand and is respectable for us. Our members too do respect this and we intend to remain on Gab, as our true members have, in a peaceful manner.

Our intention was never another as everyone has understood.

We understand the values of Free Speech and how this reflects on us but how this reflects on the social dialogue. Up to now, there is no other Social Media that has indeed upheld this in an actual and measurable way.

We also want to add that it must never be considered that our members who are legitimate to us would attack Gab in any form. Be aware however that impersonators and other skills might.

The principalities that we are against, which are the same that harass Gab, have no qualms to lie or do anything disgusting. Just know that the True Joy of Satan members would never do this.

We have no reason to, and we come in a peaceful manner to also participate in the expression of ideas, as it should be the rights of all people living. As we do not ask for any discrimination to take place against Christians [who often-times attack us on rabid on Gab], we certainly do not want any person to be discriminated against in this way.

Praise the United States, and praised be the values of Free Speech.

Anyone who defends these, is someone who in our view will be blessed by the Gods no matter of the details that one might understand at their present moment in time, especially at times when the evil of a specific segment of peoples that want to destroy everything the Gods have been trying to build, is rising it's head rampant like it is today.

In a world where even a president of the United States has been censored over lies and pure slander, everyone who believes in anything must rise to fight against this monster that some people are giving birth to. The same platforms that allow terrorists to run rampant, do not allow a President that has been followed by hundreds of millions speak in short posts on Twitter.

The Taliban have an account on Twitter, but not President Trump who was followed by hundreds of millions of people in his home Nation. The situation is clearly reaching a head where everyone who ever believed or has American values at the heart, has to fight.

We are aware that we are fighting against pure evil, in a literal way. As we have said before, people who act on this path are in our eyes helped and valued by the Gods.

We would live in a far better world if Gab, which shows that it actually values its terms of service, replaced Jew-book. We truly hope it does.

WARNING:

We advise cautiousness when any of our members are on any "social media", remember to keep your privacy up if necessary and engage in a reasonable way. The fact that the bans are overruled, does not in itself mean that even Gab is not under the scope of nefarious activity given the enemies Gab has made for defending free speech. Be AWARE and think of the matter Satanically. Silence is golden and protects yourselves.

Reply from High Priest Hooded Cobra 666:

Jews are against us on a personal level because they have an agenda, not only Pro-Israel and against every other people on this world, but also because they want to take down the Gods and remove all spiritual knowledge.

They can hate us, but we have to fight them, and that is part of what is happening. It is an absolute normalcy out of a Jew to react to our teachings and want to kill us, as they frequently express against us too.

Jews also and their values are the major proponents of the New World Order agenda, with them running this all and wanting to destroy the West entirely, and then the world. We have nothing to talk further about them, the mob of the Jews is something that one cannot converse with, they are zealots and destroyers, lizardine and nothing else.

I also can't let it go unnoticed when our Gods are openly being slandered and lied about. I know arguing with these individuals is absolutely pointless, I only do it for others who might be watching...."

Likewise, I reply to this in an elaborate manner, I know you do know of course, it's just that others have to understand also by reading, especially new members.
