

Few Against Millions

HP Hooded Cobra 666

[March 27, 2016](#)

Brothers and Sisters in Satan.

We are building up Satan's plan, which is no other plan than the liberation of Humanity. We are doing this together. Our work and effort against the enemy, is growing them weary by the day. It grows us only more powerful as the days go. And it will keep on happening that way. The once, self-proclaimed and brief "reign" of the jews and their "g-d", will be totally revealed and they will be unmasked. With compensated power, also destroyed mercilessly. Not as a random event, but as a restoration of eternal justice, of millions of literal dead people, and billions of spiritually dead people. They will pay. They are paying. And there will be no swindles and false terms.

The enemy only considers all of you animals, slaves of the mass. Though, how far is this from reality? People still get out of this and awaken. Do you think they are right? They have lost or won the battle with you?

We have been fighting a war, in which we have been severely outnumbered. One

brave woman started this, and she kept going, despite the setbacks, despite the hardship. Against all. With total faith and conviction in the Father of Humanity. Now that people will see and they are seeing the Truth for themselves, of our Ancient Father, the mistake this world has done will require its payment. And those responsible will pay, because we will make them pay with our spiritual means. What is long expected, will come. Satan didn't come with any prophecies, vain expectations and lies. He approached us honestly. However heavy the Truth was to us, because of the weakened minds the Jew has produced.

He gave as straightforward as possible, the ways and the means to push the enemy back. After all, this world, is our own responsibility. We are the builders, or the destroyers of it, each and every one to their own power. Even the enemy knew, that they wouldn't last forever. They pulled this stunt anyway. They surely made it up to a point. They devoured and killed forever so many people. The eternal though, stands and will stand. But nobody can say we have been overpowered. Hold your brothers in arms, and as we stay defiant and score victory after victory, more will join our Ranks faithfully. Our head has been raised today, and it will stay raised. People need to see these people that will move in the front, totally naked and devoid of all the Jew in their being and heart. Then, even those who weren't brave as all of you here, they will come and join our Ranks. Under us.

This is where you must pay attention. Become the best you can be. And build yourself up for what will come. How do you know that it will come, Cobra? I know because we create it together. Other than that, it will come because it has been said and it will arrive. Because the Gods and some certain Souls work for it. And because circumstance will force the Spirit of Resistance of Humanity to come up and purge the source of the problem. It may come earlier, or later, sooner, or down in time. Yet, you must not forget that this is not your beginning, neither your end. You are an eternal follower of Truth, a Soul that will live forever, and will eventually reach Satan's intention. Thinking on these lines, you must build up yourself in an eternal manner.

Once, it was just a man, against a whole world of lies. The Gods didn't let up, and they didn't abandon us, at our lowest. And yes, this has been Humanity's lowest. It has never been lower. One just needs to really look in the eyes of people, to understand this eternal grief and sadness they are painted with, smiling or not, shouting or not. You just look into people and you see dead dreams, dead ambitions, dead drives, a dead thing walking around in many of them. The more this applies, the more Jewdification has went into this poor soul. The age where you have to pop pills to feel happy, where you have to pay with your hard-earned toil to just feel relaxed for a few moments, where a virtual reality must become the new reality, because humanity suffers too much and just can't live straight anymore. Too much of a price to look at its own wounds. They don't have the

guts to do this, so they try to escape. But reality will force them to do so. And we have already done this, by looking into our individual wounds, into their eyes. Because in the end, yes, Humanity suffers. And in our end, yes, Humanity will make it. And few people decided to change this. In the root. Following the paradigm of others.

Back in 1920, now in this Age. It's the recurring pattern of the cries of Humanity that wants to free itself. Expect no slaves to do this. Most slaves will even want to stay in shackles. So paralyzed, and so afraid, to see their own weakened limbs. So fearful, as to not look upon their own selves in disgust. And in this moment of terror, we will hold them sane and show them the way to heal themselves. The weak, Nature will not spare and they will meet the existential fires they have chosen to follow. Though, the enemy has turned the strong weak, and the weak strong. It can't be reversed forever, though. And this time, things will be different. Because the whole world has known them by their fruit. This is why education and spreading the Truth is important. People have been ridding themselves of many shackles of the enemy, and many will too be destroyed by the magnitude of the enemy's attacks. The last chains holding these people down, Xianity and Pisslam, will also come off. Humanity will be able to breathe again. Yet we have so much work to do.

Then, it became that a few hundreds, went against this rotten order. Now, as time draws and people wake up from their inducted and brainwashing slumber,

others are coming up from this jewish existence. 1 to 100, 1 to 1000, 1 to a million even. We will stand and fight, until the end, fiercely and to the end. Humanity has suffered enough. No more. Few, against Millions, even billions.

Let the silent history of the Gods bear your name too. Do something great, take a stand in the side of your family here. As we all do. Then you will be able to know that you fought for what was right, while others just died in the path of what's wrong.
