Those who come to Satanism and expect to find terror fables, lies, spooks, ghouls and kosher culture, will be disappointed.

Satan has given His representation in our hands and away from the hands of the jews. Who did nothing else for two thousand years but blame all perils on him, make him seem like an evil pet (Despite all evidence), and subvert "The Adversary" of the jews in any way possible.

Satan for once had the opportunity to speak for Himself, more or less, and make his thesis known. He blessed the Joy of Satan for this very particular reason and objective. As thus, we did our research and presented it to the world, something which seemed to attract, and keeps attracting all the more every day, giant interest.

Satan tried to speak to Humanity through all ages, in different forms. Even from the position the jews put him, he still channeled his messages of freedom, rebellion towards rotten order, scientific study, occult, spirituality, artistry, love for existence, life and nature, and every other beauty to us.

He and the Pagan Gods were 'banished' but their influence never really ceased: Even their enemies masked this, attempted with failure to remove this, and attempted to color it with their own colors, but could never get rid of it. Satan always was on top of them: The memory of Satan is everywhere, and in everything. They just hid this fact from the masses, and invented new jewish idols in a vain attempt to replace the Eternal Gods.

For without them, there is nothing beautiful, and important for humanity. Satan can never be banished or destroyed; Satan can only be defamed, and as the enemy hoped -hidden- and in that, his enemies have done all they could.

Now, Spiritual Satanism is just *THE* Primordial Paganism. We have used this name because this has two essences: Spiritual, which means the need for spiritual advancement and working on the Soul, and Satanism, which means, from the Sanskrit Word "Satya", Truth-ism in an English Abbreviation.

It reflects our conviction in Spirituality, and the belief in Our God, whose name means TRUTH.

Those who seek jewish occultism that is blasphemous to the Pagan Gods, jewish

mental insanity, and jewish para-psychological retardation, fake 'spiritual' nonsense, will be highly disappointed in what "Satanism" means anymore. They will find better answers on a Synagogue, or a church instead, for they praise the same exact things as our enemies do.

In short, it's a misfortune they still carry around Satan's Divine Name and savagely defame it: which is what the jews have done for thousands of years. We do not believe in "Satanism" before us. This is simple as to why: Except of few respectful servants and people of Satan, many others just did their best to defame, misrepresent, and create Satan into a racketeering business, no different than how Abrahamic religions and Jews have done for thousands of years.

Spiritual Satanism revolves around 10 main points. These are not written laws, but rather, something to sum up what Satanism is.

1. Satanism is about freedom, positivity, creation and empowerment.
2. Satanism is about studying, wisdom and self-knowledge and understanding.
3. Spiritual Satanism is about elevating one's self spiritually and becoming spiritually advanced.
4. Satanism is not about slavish worship, but people are allowed to worship as they please in accordance to their nature (except of disrespecting the Gods).
5. Satanism recognizes all the Pagan Gods as real, flesh and blood entities, that are our spiritual and physical forefathers.
6. Satanism is about respecting, knowing and understanding nature and learning/mastering the universe. We follow Nature's laws, while we also try to learn and master them.
7. Satanism is about life and anything that promotes life, and quality life, and is against degeneration and death, and misery.
8. Satanism is elitism, and people have to seek to make themselves better and more elite/advanced versions of themselves. This creates a better world.
9. Satanism is the striving of Truth and NOT falsehood, at all costs: This is why Satan is our Head God, for this quality His Name represents. There is no simple 'evil' in Satanism, but FALSEHOOD, which only then becomes 'evil'.
10. Satanism is the form we have today for representing all the above ETERNAL CONCEPTS. Spiritual Satanism is an ETERNAL understanding. We understand

ourselves as partakers in an ETERNAL, infinite existence.

It's really simple: Spiritual Satanism is ABOUT LIFE, and IMPROVEMENT- it's a system that works Light and Darkness not as 'enemies' and ethical evils, but actually parts of the same creation.

Externalities of that such as the jews, their sick systems, and other things do not concern us anymore, other than DEFENDING ourselves, and wiping out their lies pinned on Satan's back, which are unjustified, pure vehement, and perilous.

All Spiritual Satanists are obligated to find about their roots as people, races, and cultural roots, and understand the eternal concept we coin together under the term "Spiritual Satanism", which is a clearer emanation of the (unfortunately) corrupted presentation of nowadays Sanatana Dharma.

These people have to come together in a worldwide congregation, honoring their past, and our aim is to rebuild the Golden Age of Humanity, where only Truth and Bliss will dwell into the world. This starts from the person, extends to the smaller circle, and then grows until the whole world is engulfed.

Spiritual Satanism is about upholding all the eternal laws of nature, including making positive decisions for one's self, increasing one's spiritual life, becoming better and more advanced, being free and in accordance to one's own nature, and lastly, not engaging in behaviors that ruin this process or the world at large.

Spiritual Satanism is a mastery key system and the only real and Ancient religion of Humanity, which in essence was the same in All Pagans, since forever.

We have proved this, and we keep adding further proof into this unending chain, all the time, both us Clergy and our members. It's an inheritance that can be practiced by all people with permanent and great results, except of Jews.

Why we use the name Satan? Because it means TRUTH, and because our enemies hate, are shrinking of, and are opposed to this Divine Name.

So long everyone tries and advances themselves in that way, one is a Spiritual Satanist.

It's really that simple. Those who just obsess over other drivel are merely missing the point.
