

The Biggest Lie That Was Said About Satan

There are many things I would like to share and say, but due to the fact that we are censored online, speech is limited, and also, we have the enemy and many other factors, such as idiots and/or infiltrators.

That aside, it is always a good thing to share at least something if it is to inspire, or to show Satan's Providence, irrespective of the above. After all this is, if anything, very necessary.

Given this is the case of this world, there are many things that are secret, and will remain secret, largely for reasons explained above. Some things I have decided to just let go, until the time for them arrives. Everyone does this in their life. For example, a parent waits until their children are older to share with them some important knowledge or advice.

As time progresses, everyone can observe, this war is also escalating. Many people thought this would be bullshit back in 2005 or so forth, where things were simplified, different, calmer. Back then, most people didn't really even have faith. The enemy wasn't a lot under threat. Much of this was undiscovered, a lot of convenient lying was around to keep people pacified, and so on.

Most of this is because many people who arrive to Satan, arrive from broken backgrounds, or tend to be harmed in life in general. This is a Truth that I have seen very verified. Nothing bad in this, as everyone can improve. Everyone should, after all, advance. This is what this is about. However, be it that the Jews have lied relentlessly about Satan [No different than they do with Hitler or anyone else who has went against them], many people come to Satan with the usual wishes.

Combinations of specific groups, victim mentality, and a careless reckless approach to life, can create potent combinations of disaster. Historically, one of these alien combinations, was xianity. Amassing all the degenerates of it's time, and with the leadership of alien jews, this program destroyed the face of the planet and all the Ancient World, and all that it had to offer.

Then, our history was collectively re-written, and here we are, in a world trying to "Restart" itself again, and making steps towards improvement with confused steps.

To prove one's self to Satan, and above all, to advance, takes time. Those of us in the path, have learned it more by walking it, and setting a new trend and a new path, than by reading about it. Except of HPS Maxine which took the head here, and gifted this wonderful and above all TRUE path to everyone, there were closely zero other sources. Of course many small minded people who cannot even fathom the importance of this, will not understand it.

It is the most difficult of things to punch a hole into a wall of this mental jewtrix prison. This can be as hard as the meme with the person who has been trying to dig a 20 feet cement

wall with a plastic spoon. The second most difficult thing, is to walk through all of the security of this mental prison, and to get out, and make it "alive". After this is also done, one needs to reclaim their freedom. As a last step to this, destroying the prison of the minds is the last essential step. All of these steps have exceeding difficulty to themselves. We are doing all of this.

There was nothing functional or important about Satan before the JoS came along. Mostly, it was garbage. Some honest commentary about loyal disciples of Satan, or "The Dark Lord", was mainly centered about parts of what they have understood.

Then, there were all these shitty sites that speak about strange and mentally ill people and how they write about whatever depravity, claiming it's a succubus. Little more down the alley, some druggie that claims they saw a hoofed apparition, and then another mentally ill person writing bullshit about how Satan came to chase them off at night.

Then we open our TV to listen to a Jew saying "Thank God, thank Jesus", and making claims of the "Good lord", while then one closes the TV, goes to sleep, puts the controller down, but in their hotel, here lies the book of the history of some kikes down the desert, namely the "Bible", which is just a story of jewish psychopaths and jewish slander.

Long story short, this is the material manifestation of the jewish prison of lies. Everywhere one turn's their head around, there are endless lies. As Hitler stated, when these are repeated, then people will start believing them, even if these are totally untrue. Most people, especially xians, believe what they are told.

We Satanists here are the reverse, we went to take the trip towards the unknown, with little information, most of us questioning how it would turn out. Overwhelmingly, we arrived at the same shore of kindness, love and care of the Gods. Therefore we know things to be True that others have no idea about. They believed as they were (((("told")))).

In regards to the few "Satanists" that existed before the JoS and did anything constructive, or did not follow the jewish norm [almost none], the reality is that most of them were very selfish, if fruits were produced, they kept them to themselves. Or to just protect themselves, they kept a low tone. Censorship, silence, and other detrimental things, such as Jews being everywhere in Satanism and turning it into what the Torah dictates ["thou shall defecate on the Pagan things"], had turned Satanism into an asylum of jews and other crazy people who dressed strange as if trying to provoke a mockery on the "Ha-Satan".

Normal people saw this and got scared, or worse - but given these people enjoyed this circus, this trend continued with frenzy and the jews had a lot of fun around this - it verified after all, all the lies the jews have heaped on Satan, and maintained the fundamental mockery and slander the jews have started about Satan thousands of years ago. Satan remained in slander, and misunderstood.

Satan's history begins in the East, and everyone here knows that. We were lucky these Truths have resurfaced, as the enemy flattened almost all Ancient Information. Due to struggle in the last 300 years, many of these have come to light physically again. Were no war of intellectual, physical, and spiritual nature taking place, all of this would be lost.

Anyone who has meditated or used the "Satanic Name", ie, Satanas or Satanama, has understood that these mantras of this very "Name" produce well being, energy [life], and in general, make the mind open and acute. At least in Gentiles, that is. The sound-wave form affects the Soul and therefore, what is good for one, may be negative to another. As far as the mere function of this goes, any meditator who is not brainwashed, would know these effects or have felt the positivity of this. Advanced Eastern Yogis and other people who do these things by the millions [our spiritual inheritance, after all], know this very well.

Here as a counter example to well being, we can illustrate the example of jews who constantly whine that Satan and the Pagan Gods are the source of "All Evil" - yes, for them, they certainly are. The jews, have seen, are seeing, and will see, the "Other Face" of the Demons and Satan, because of all they have done to this world. And they hate them with otherworldly and undying, aeons old, passion. They are, after all, the Gods of their enemies that they are sworn to destroy.

On the other hand, many jews, constantly try to pretend that "Satan" is something to be pushed into their own "paradigm". This general mockery is all they did to Paganism - writing lies and slander constantly, and pumping it in the illiterate masses, until they believed them. Jews and the idiots who follow them, accept the jewish paradigm, as they themselves have been jewy-fied. In the case of jews, or slanderers who are like jews, this re-affirms jewish superiority by affirming the jewish paradigm. In short, this is like accepting the slander about someone, because one loves the slanderer.

In the above case, this means one believes the jews, and has always been with the enemy in the first place. They approve the superiority of the enemy, even if this is wholly untrue. And in that regard, one is nothing but an enemy of Satan and a xian.

Enemies of Satan have existed for centuries. Others are direct, and others are misinformed. The misdirected ones hate on someone or "Something" they haven't known, researched, let alone tried to "experience". The actual enemies of Satan on the other hand are those who have experienced the "Resistance" and "Negativity" from what they ascribe to be Satan. Nowadays with the inflow of information, we know these people are mainly the Jews, and their plans surmise around enslaving mankind entirely. The same story has been repeating since the Feudal times and Middle Ages, and continues today with Tech dictatorship etc.

It is a life and death matter for the Jews to write hoaxes, disinformation, and fake stories about Satan. Sitting on the shambles of the Ancient World, and being fully aware of their crime, they had to lie as much as possible and for centuries, to hide the Gods from the populace. One just needs to read some drivel of the Jews, and they will understand, it is all just mental illness and the usual slander the jews are doing. Nothing has been slandered more by Jews, than the Ancient Gods.

Their programs of Christianity, Islam and Judaism, are only reactive programs to the original ones of Paganism. After they killed anyone, they made sure to change and reverse the stories humanity has grown up with. This is no different than an abductee being told by the abductor after anesthesia, that they are their own "parents" or some other shit one sees in thrillers.

Every so often there is also some retard that tries to say that "Jews have said X thing about Satan". This has even come from Pagans, who have on their own been slandered by the jews. It is hilarious to look at. They are so programmed by jews deep down, they have no logic left in their head.

If we take what is said about Satan by jews, as real, is it also then real what the jews say about Gentiles, that they are cattle? No.

Does it matter at all what jews say or what their opinion is? No.

Should it even matter what a psychotic race of alien souls says about anyone? No.

The Jews have made Gentiles "Care" about their drivel by forcing, through death, communism under different names, suppression and censorship, their "paradigm".

As time progresses, all the lies of the Jewish Paradigm are collapsing. Everyone here understands, that this is only just the slander of a fearful people and misinformed people. Jews, have always had negative experiences with Satan, as a criminal always have had bad times with the police.

The Gods were, and still are the protectors of this world, and so were their followers, for thousands of years. They preserved civilization, life, and did their best to promote the ascent and advancement of humanity. Everything, even the enemy admits, comes from the Gods and the so called "Pagans".

Due to their inability to destroy all of this line of knowledge, information, and purpose, they have merely attempted to cover this with lies.

Satan's Name is clearly rising away from the slander, disinformation, hoaxing lullaby of the alien Jew. As the aeon proceeds into itself, heavy Truths such as the alien origin of this battle, and what this entails with "Other Worlds" are also being revealed. Everyone is seeing, this involves also the enemy and them dropping their mask entirely. This unmasking is because they need to force through their agenda. Due to it's nefarious nature, the more this is pushed, the more their mask cracks and humanity sees what this always was about.

Lastly, as this happens in the world, it's normal that some people will stick to "Their" convictions which are against Satan and/or slander him. They pay little attention that in every Free masonic Lodge they have a Bible and a Torah, or that Islam has destroyed half the face of the planet, being only the descendant of Judaism in the region of the Middle East.

They will insist that "Satan is ___insert vilifying jewish claim here___" because deep down, the Jew remains their master - master of their culture and everything else - they are still goyim. They cannot reason away from this. They cannot "ignore" it. Too lazy to research further. These people will remain ignorant and are unfortunately the dead weight of spirit power that is being siphoned by the enemy to bring around their final ends. Their only hope is through the manipulation of our own Rituals, which will bring out results that will help us, without this dead weight even understanding what happened.

Christians should not be looked upon as "religious" creatures, but rather, as non religious creatures. They lack spiritual faculty to discern anything. They have no spiritual aptitude. All they are, is merely a mass that is spiritually diseased. As with someone who is colorblind and chooses to remain so, requiring them to see colors or expecting them to see anything, is an unnatural expectation.

Certainly however though, these idiots should not be allowed to bring the curses of the Jews that they worship upon reality because of their self-destructive complex, and our workings are pushing this spiritual parasitic manifestation system to collapse once and for all. Many of them are so deceived they will ask "God" for help, meaning the jew, as far as their little mind is concerned. Clearly, the jews whom they worship, want them all killed or slaves in a farm.

Due to the factor of complexity and confusion, Satan is called upon unconsciously by people, every so often, to save this world from total enslavement and damnation. Those who are spiritually wise, do understand this, and they will desert the jewish program before it is too late. For the rest, they will be an idle cry in the sea of chaos.

In closing, the Jews should be completely ignored in what they have to say about "Satan", as their plans, visions of the world, and all sorts of garbage they have created, requires to be in the trashcan for eternity. The more we move away from this diseased jewish paradigm, the more our world will heal.

Unlike many other centuries, we now have the path, the knowledge, and the pathway to make this happen. The restoration of Ancient Core and Central Paganism, or Spiritual Satanism, has been the historical central step to this direction. All we have to do now is walk the bright path that has been set ahead of us.
