

# The Practical Reality of Living With Jews - New Jersey

Many people think the issues with Jews are always some very far away thing. They never met one, or so they say, and if they met one, he didn't kill them or drink their children's blood as it's accused by those who believe in Blood Libel, so they must be good people or at least like anyone else.

This is normally the opinion of people who are really poor, ignorant, or just live in Shrine places still where Jews aren't a directly affecting phenomenon. All the other people tend to have serious issues with mistrust and incompatibility with Jews, to a degree that extreme compared to any other group.

What everyone needs to understand is that when and if Jews take over the world, your life will become a living nightmare without end or beginning. I wish there was a reason for this to explain the mentality of the Jews on that one, but there is not, they simply think Gentiles are destined to become slaves and to be killed, it's part of their Reptilian Neolithic religious belief system.

Most people have no clue how psychotic these people are. This can easily get personal for them.

To give a recent example of this, look below on the video, as some Hasidic Jews have started moving in New Jersey in 2016. Already, the Black people living here, want them gone and removed from the neighborhood, and there is extreme distrust going on between the two communities.

3 Years ago Hasidics started arriving in New Jersey. They started buying properties there which were cheap, and bullying the locals with all sorts of threats to make them sell houses that costed upwards to 1 million dollars, on amounts such as 150,000\$ dollars. They started casually terrorizing locals and as you can see they were really afraid of the Local Goyim there, whom they avoided by literally going on the edge of the sidewalk.

Why Jews do this is that they believe the Goyim are inferior so they avoid as much contact with the Goyim as possible, because Rabbinical Jews believe this causes negative energies to come on them. They feel enforced and damned when they have to even get to speak to Goyim, and this is more pronounced with Hasidics and Orthodox Jews on the higher tier. Top Rabbis avoid Gentiles to a distance of at least 10 feet.

The video below reveals the abuse that the Jews have been doing to Blacks in New Jersey and how they gradually came in like invaders and colonizers, laying low in the beginning. The locals therefore did not like them and they considered them dubious and dishonest.

If you notice this video, this Rabbi is literally spazzing. Many Jews get that spazzing because they effectively chant the Torah all day long, and their nervous system is essentially wrecked from it.

As to what they chant from the Torah, curses and benedictions for the goyim to basically sell everything to them, be compliant, and sell something that costs 1 million to them in real value, for like 150,000\$. Now everyone who is sensible would know that these types of deals are just impossible for people to give, but these things are a casual reality for Jews, given how much they brainwash people. In the 1990's, the Black Community just exploded over this type of exploitation and started razing the place.

To see how and why this terrible attack that killed the Holy People in New Jersey happened, maybe one can get an idea of how this went down from the video below. This video is from 2016.

Fast forward 3 years later, the results of Kabbalistic cursing, thieving of the territory of Blacks, and eventually all these negative energies the Jews bring when they chant the Torah all day long to bless themselves and steal the wealth of other people, and colonize them, came to fruit when one Black person [Hebrew Israelite as the news say] slipped into the pit of violence and attacked one Jew, and assaulted him. The death toll is 3 Jews and one Gentile.

The media of course kvetches this is "Anti-Semitism", but as you can see from the video above, the people were actively being raped in the territory and pillaged. But of course whenever something happens between a Jew and a Goyim, it's always the Goyim's fault, and always an act of terrorism.

When the Jew kills and thieves the Goyim, that is justified, moral, good, pristine, sublime, great, legal, and every other positive word you can find.

**These Hasidic Jews came to Jersey City for more affordable living. Now they're coping with fear and grief**

*Jersey City, New Jersey (CNN)When the shooting started outside the kosher supermarket, Yossi Steinmetz was next door at the small synagogue and yeshiva with the market's owner.*

*"We thought it was a gang fight," Steinmetz said. Unlike previous times, however, the bursts of gunfire intensified rather than dissipated.*

*Moishe Ferencz owns the supermarket, a symbol of the growing Hasidic community in this northeastern New Jersey city of just under 300,000. Steinmetz said Ferencz tried desperately to call his wife next door. She wouldn't answer. He wanted her to lock the doors and take cover.*

*"He was so nervous," Steinmetz recalled. "He was afraid to go out."*

*Mindy Ferencz, 31, was among three civilians killed during a running gun battle Tuesday that officials said was a deliberate assault by a pair of attackers on the kosher market. A police officer was also killed.*

*"It was like a war zone," Steinmetz said. "Like when you see clips from Afghanistan. I doubt there is one potato chip bag that's still full. From the amount of ammo they were shooting, I knew right there nobody was walking out alive."*

*Whatever differences existed between the largely African American community and the 100 or so Hasidic families who have settled here in recent years, they were united by the terror that gripped the rough-and-tumble residential streets of the Greenville neighborhood for hours.*

Now, in regards to where White people fall in all this, let us just say the White Goyim's destiny under jews is to effectively lose its life over trying to amend the above mutually terrorist groups, such as in this case the Hebrew Israelites and Hassidic Jews.

And of course, if needed to die in trying to protect the Jews for it. Now this typically White cop, has probably left orphans behind or lost his life because Jews have a beef and want to thief territory, and because Hebrew Israelites think it's a good idea to slay jews after being fed up from financial abuse.

Of course none of this is expected to stop as simply stopping this or telling Jews to get their shit in gear, and stop doing what arouses deathly hatred against them, is not only impossible for them to do, but also a virulent act of Anti-Semitism. Nobody should tell Jews what to do at all. Like maybe if they didn't steal territory and effectively colonize people with abusive marketing practices, they would have been spared.

But this is beyond them. Plus, every time one of their own dies, that's always good grounds and justification for them to ask for more military and defense support so that people like the guy alone and his family can remain childless or leave orphans behind, trying to put Justice in the middle of what is essentially psychopathic racist behavior between Jews towards Gentiles.

Another day in Clown World. Just a merely typical day, of the typically typical jewish reign, going in the typical jewish way and jewing, and reaping the reactions for it, while claiming it's anti-jew to be anti-jewing.

We have to do the RTR's and set ends to all of this.
