

Trump, the World and the RTR's

As predicted in the past, our RTR's have been wreaking havoc on the enemy. Not only their goblin Hillary lost the elections, their media have also been ravaged, but also Trump who they considered their underhand fanboy, is basically doing a good job in steering everything to directions from which we can benefit. We have caused a disaster to the enemy that is unparalleled. We need to keep going.

Trump has actually done good in awakening people to the perils of 'demokrazy' and the existential danger posed by one of the most dangerous jewish programs, which is Islam. Which he had to do, and he was forced to do, as the jews couldn't hide what is going on. Running from the ghost of what they have created, the jews allowed him in a position that cost them extremely much. In their paranoia, they damaged themselves even harder. The enemy has forced Trump into the "normalization" process they force all presidents, but due to many other uncontrollable circumstances this cannot happen, and the more they force it, the more enemies they make. So they outright attack him instead. Because as you can see there is no faithful jew, not even to their own.

They hate Trump and anyone, no matter how much they have been in terms with them, if they don't do EXACTLY as the jews demand. As you can see, the jews don't allow Trump to get his way, and this is not because of him, but because of what will happen if he does not listen. Which by definition hasn't happened and it's too late now to correct anything. So they keep attacking him instead and attempt to cause civil war, to kill Goyim and put Fema camps in use. Remember the power is in the people in reality. It's the general populace they are after.

To see how the jews treat their own, just see Stalin. Stalin butchered all the other jews whom he abused and used to get into power, over no reason whatsoever. The jews have a history of killing and brutally murdering their own by a lot of torture, and Trump knows this too. Even if someone is jewish, if they don't dance to the zionist drum, even by mistake, the jews will want to hunt them down and destroy them completely. This is why the jews are forcing the meme that Trump will be a second Kennedy. Kennedy didn't have RTR backup though. If he did, history would have been different now.

Print, save to disk, and salvage the RTR's. As we have seen, the enemy has a habit of attacking these. This is because these are the spiritual warfare tools of

Gentiles now. We have occult weaponry, something that for centuries we did not have.

The enemy is forced on stepping back, and assessing damage from many frontiers. Their own people throw their own below the bus, simply because a clean house has to be made, and it cannot go indefinitely like this. There is only one thing that can be stated, and it's THANK SATAN for the RTR's. Many of you remember how we have saved the internet, averted wars and many other things over the years by our efforts. The RTR's have been falling like rockets who force the enemy to retreat.

In war, even small Victories can be decisive to the outcome of the whole war. No RTR is too small, no person is too weak. Everyone can fight. Even a monstrosity as big as the enemy can be taken down, and the hugest of gladiators stepping on the wrong stone can make them collapse like a card tower. Small changes make the big changes in this case.

An RTR is far worse than a rocket in the long-term of history. The RTR's hit the core of the power of the enemy, and not what sprang from it. The enemy has been cursing us "Goyim" for centuries, you have to remember. Only lastly, they engage and do a full sweep on the material realm, and only after victory has been completely decided.

I bow in reverence to Satan and His Power, vested in us to do better to this world. Also, our struggle has only just begun, and it's now things are getting really heated up. Our RTR's help the whole of humanity, and if you are paying attention, the enemy is at least retreating on many levels. That's all thanks to those of us who did something. Those who have been fighting the enemy for years, know their power, but also, they know that the children of Satan have extreme power as well.

This is why for centuries, the enemy has kept our kind under persecution, death, and always seeks to censor, attack and harm us. Satan is the gateway to freedom. As the jews admit, Satan destroyed the jewish empires, both that of the Islamic Ottomans, and the Xian radical Byzantine Empire. Both of these have been destroyed by Satan's hands, same as the Middle ages etc. All of these 'empires' were big climaxes of jewish dreams, and in all of them, humanity and everything good suffered incessantly.

Many people focus on the damage the enemy has done, which is extreme, but also Satan has done them far more extreme damage, and also damage from which one would be pulling their hair on how they lost governance. The Middle Ages were the perfect times of enslavement. The impossible became possible,

by spiritualists and people of the time, and Humanity gradually broke free of Jewish rulership.

In 2016 many interesting advances have happened, but for the sake of it, many Jewish idols perished at that time. Maybe it was a result of the RTR's, maybe not, but the failings of the enemy should in any way, have a symbolic nature and meaning.

2017 is going to be a really HOT year for our side and our fights. We need to keep going with unending resolve. There is more than meets the eye. The 2017 elections will be a rude awakening to the enemy and those behind gates who try to bring Europe down. We must be unrelenting until we have perfected leadership in every Gentile Nation, and until poverty and many other freedom-threatening things have been abolished. One step at a time, and one victory at a time, we are going to set the deal straight.

Lastly, to mention something. In Hindu lore, when Humanity goes off the far end with Race mixing, and many other existential wrongs, while it plunders in decay, the Hindus believe that an Avatar of Vishnu, or even worse Kalki, manifest and sets the record straight. This is Divine intervention. The Hindus may call it like this, we know who it is, who HE has been, and we call Him Anti-Christ. His coming is necessary when things are literally going to the cliffs. Many times, and in many civilizations, many people have raised their heads against the Jews, which is why Humanity still exists in an acceptable way. There is FAR BETTER to go, and the enemy is keeping Humanity and all its races back from advancing.

The powers that be, except of the enemy nefarious aliens, do not like it, and even if to Humanity the purposes of these beings are coming to light now, the powers that be such as friendly alien races have known about them for thousands of years. The Jews always try to escape judgment, and sometimes successfully, but if beings keep pushing, this will become inevitable. Spiritual judgment is necessary, and this is because of the situation we are seeing in the world, let alone endless murder and warfare the enemy has caused. When situations like that reach the cutting blade, some beings *MUST* set the record straight through spiritual warfare. When the time is right, Humanity will be restored, but the pathways have to open, and we have to minimize casualties and damages by the enemy.

The enemy wants to rush into the age of Aquarius, and rob people of their freedom and future, so that Orwell's technological nightmare is created so that people will not be able to react. We are going and we need to stop this by diligent spiritual warfare, opening the path for constantly greater things to emerge.

We will defeat them in every single battle that we can, and NEVER allow this to happen! Blessed be, Satanic Family and Comrades in Arms!
