Greetings to all our Satanic Warriors.

Halloween is upcoming. This is our time now, and these days are a time for Satan. Halloween is a celebration owned by Satan from the beginning, to the end. The Halloween is not celebrated in the same time for every country on earth, but in context, it's the same celebration where people dress up, have fun, and many other things, all of which are rooted in Pagan culture.

Many Xians try to claim Halloween is fake and baseless, and that somehow they pulled it out of their ass to be "All Saints Day", but it is Ancient, and they have tried to cover this up for a while and enforce their own history against worldwide Pagan history.

Halloween is in fact, **Samhain**.

This is done to dominate the enslaved, which are the Christians. The celebrations, religion, and the culture of the enslaved under the jews, perish and are replaced by jewish shitfests. Of course, as with anything that has to do with Satan, it's fun, beautiful, and meaningful.

The jews have been trying to corrupt and destroy Halloween by running gamut dressed as clowns, even assaulting children. As with anything else, they corrupt it. Halloween is a time for sexuality, celebration, young people also have fun, party and so forth. The enemy is all about gloom, destroying societies, and making people sad and depressed all the time to benefit from this.

Spiritually speaking Halloween is a portal to Satanic energy. Many groups are actively doing rituals to the Old Gods in Halloween. Satan gains many followers every year during Halloween and other important dates. Some people even dabble to the occult as a result for "Halloween Jokes". Long story short, this is a time of opportunity and where our energies are on the rise.

We will of course make use of this and spiritually add to our, already powerful, warfare. Building this up, this will open up the gates really powerfully to proceed throughout the year. This schedule will really amp us up, while sinking the enemy to the pot of crap. It will also help empower all of our people a lot. After this, the more we have done, we will have raised higher altogether.

For the above, everyone must participate. Everyone gains good vibes from it.
